SESSION DETAILS

SESSION EXPERIENCE

My goal for your photo session is to capture the unique bonds of love in your family. While we will definitely aim to get the traditional "everyone looking at the camera" photo, I would love to capture your family in your element - with authentic emotion, full of joy and the love you have for each other.

Photos you can feel and not just see!

Your session will be super relaxed, casual, fun, just be yourself!!

You don’t need to have prior experience in front of the camera. Just show up, keep smiling, have lots of fun, hugs and kisses with your loved ones and I will take care of the rest :)

LOCATION OPTIONS

My goal for your photos is that they will be focussed on YOU, the beauty and connections unique to YOUR lovely family!

With that in mind I have carefully curated two outdoor locations which fit my bright and airy photography style. Beautiful light, away from crowds with minimal distractions, with space for your kids to run around and play, where you can just be yourselves!

You can pick your choice of scenery - a beautiful beach or a picturesque park, and I will send you the exact location details closer to your session date :) Both locations are in the Northside of Greater Brisbane.

The Beach

A beautiful, fairly quiet beach with the Glasshouse mountains in the backdrop.

The Park

A picturesque park on the banks of the Pine river. It's so peaceful and quiet, with plenty of space for the little ones to run around.

SESSION TIMINGS

I like to photograph my clients in soft, natural light, because I love images that are clean, bright and timeless.

I begin my sessions around 1 - 1.5 hours before the scheduled sunset – during the magical “golden hour” – when the light in the sky is the softest, dreamiest and most flattering. You can use a sunset calculator online to determine the scheduled sunset for the date and location of your session. Then, just subtract 90 minutes to figure out your approximate session start time.

When scheduling your date, it’s important to remember that the sun sets much earlier during the colder months of the year and much later during the warmer months, so make sure to factor that in — especially if you have young children with a specific eating or sleeping schedule, or if you (or your spouse) will need to leave work early to get ready for the session and arrive on time.

PREPARING *for your* SESSION

Once you book your session with me, you will receive a complimentary, detailed Session Prep guide on how to prepare for your session. The Session Prep guide is jam packed with helpful tips on selecting your wardrobe colour palette, co-ordinating outfits for your whole family, getting your little ones ready for our session, and more!

I will also schedule a pre-session consultation call, where we will chat in-depth about your vision for your photos, your family's interests and other finer details, so I can tailor the photo session to capture your family's unique story, and help you get the most out of our time together.

INVESTMENT

Your photos are not just for the "now". They are not just for changing the lock screen on your phone or your social media display picture (although you can TOTALLY do those things!).

They are for 20, 30 or more years from now. For your kids and grandkids to look back on and know how much their parents/grandparents loved and valued family.
They are very well worth the investment!

I strongly believe that your photos should NOT just live on your phone. That's why I offer heirloom quality prints, frames and albums, as tangible keepsakes of your precious memories. These are professionally printed at reputed printing labs , with the finest quality materials, which means your photo products will last for many, many generations when stored correctly.
