

Our Family

#3014344

Families can be lots of different things- there is no such thing as a "Normal family", my family is me, my son, and 2 wonderful dogs. You are welcome to define your family in any way that makes sense to you- sometimes it is helpful to use "the people who live with me", but sometimes it is important to include others as well- it is up to you!

Take note of the conversations that happen around creating this piece together, talk about the things you share and the things that make you different.

Instructions:

1. Sit down together and discuss who makes up your family
2. Cut out and assign a puzzle piece for each family member- except the central piece.
3. First, write your name in whatever style and manner you choose
4. Decorate your puzzle piece in a way that best reflects who you are, your interests, the things you love (hint: mine has dogs, books, and nature!)
5. Use the central piece for things you like to do together as a family
6. Put your pieces back together and look at the masterpiece that is your family!
