

**We, the director and staff
of the Diamond Arts Preschool,**

**are committed to providing a nurturing,
trusting, and educational environment
where young children may grow where
they are planted and experience self love,
social comfort, and confidence in
learning new educational concepts.**

**We are passionate about the arts and how
dance, music and theatre create a confidence
and trust in children for their world and
their purpose throughout their life.**

**We know as an arts preschool that we are the
first impression of the arts for a child and
we take on the responsibility so our students
feel ready for their creative life and beyond
after completing our program.**

**We love children and want them to love
themselves throughout their lives!**
