

Halotherapy helps you breathe easier

What is Halotherapy?

Halotherapy is a treatment that involves breathing salty air. The conditions of heat and humidity in our infrared saunas allow for optimal salt therapy healing. Microsalt Halotherapy can help you breathe easier. Microsalt Halotherapy can be beneficial for helping subside colds, sinusitis, and also promote healthier skin.

Benefits of Halotherapy:

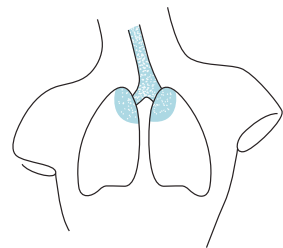

Respiratory Support

Allergy Support

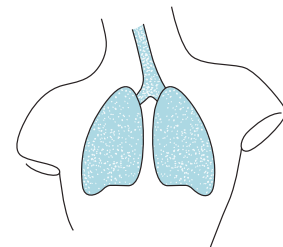

Depression & Anxiety

Acne & Eczema Treatment

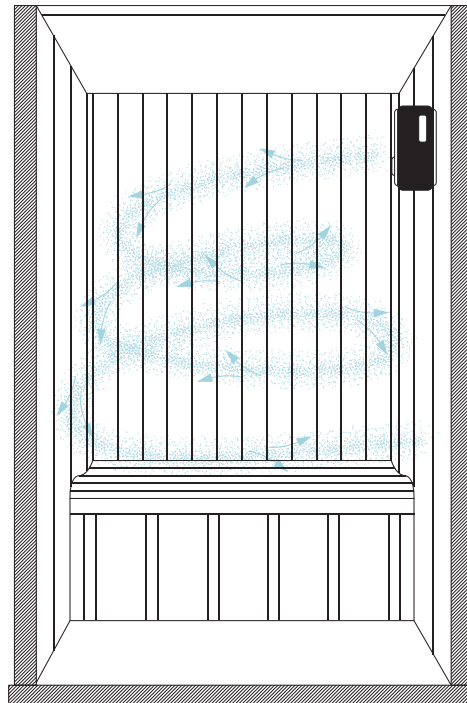

Reduces Inflammation

Depth of penetration with conventional salt

Depth of penetration with microsalt mist

Note: To explore further, search "Halotherapy" or "Salt Rooms" online.

Experience the Healing Power of Salt Therapy

By adding the Clearlight® HALOONE™ Halotherapy Generator to your infrared sauna, you can transform your sauna into a healing salt cave.

Take Salt Therapy Deeper

The HALOONE™ is the only halotherapy generator producing salt particles between 1-10 microns, allowing for deeper penetration and increased healing benefits to the lungs.

A Convenient System for Your Sauna Session

HALOONE™ uses one saline cartridge per session; no measuring or clean-up required.

Experience Benefits In and Out of Your Sauna

Optimize your benefits by bringing your portable and rechargeable HALOONE™ into any small room.

*Charging for an hour allows up to three sessions.
