

## HYDRIXPOD HYDRAULIC HOSE REPAIR AND MAINTENANCE SYSTEM

The Hydrixpod is an all weather, all terrain mobile unit that enables the user to assemble hydraulic hoses following the same principles used in original manufacturing facilities.

Whether you are a logging, civil, mining or agricultural contractor looking for ways to reduce down time waiting on hydraulic hose repairs, or a heavy duty mechanic looking to expand your service offering - the Hydrixpod is an innovative facility worth looking at.

For the model and construction of this Gull Winged Mobile unit Hydrix has considered all elements:

- **Tough and robust** construction built to handle and live off road.
- Built using **Light weight high density polyethylene** and **UV resistant** materials with Cabinets, Shelving & Die rack holder.
- **European torsion suspension & braking system on the trailer**, ideal for moving around rough terrain sites.
- **Strong & robust** Chassis.
- **Dustproof & waterproof** to reduce hose contamination and to maintain a clean site.
- Huge **underbody drawer** for all new or used hoses to be stowed.
- Safe **low voltage** machinery.
