GUIDE

ERIN HOYT PHOTOGRAPHY X SOWLE FILM STUDIO

VIDEO COLLECTIONS

Sowle Film Studio and Erin Hoyt Photography collaborate to offer a photography and video collection. This collaboration allows our couples to work with a photo and video team to create a seamless experience documenting your day.

Caleb Sowle is an experienced wedding filmmaker who approaches the day with a confident, minimalist technique that makes use of the environment, the couples' instincts, and candid moments. He believes that the purpose of a wedding film is to immerse you back into that special juncture in your life, and it starts by minimizing distractions day-of. His laid back approach paired with his skills and years of experience behind the camera will keep you comfortable and assured that the footage is stunning.
