

LARA SCARR DESIGN

The Studio's
INVESTMENT GUIDE

Every *timeless brand* begins with a single feeling, one that *refuses to fade*. The kind that lingers long after someone's first glance. Our work is about tracing that feeling back to its origin and turning it into something you can see, touch, and build a legacy around.

This isn't design for decoration. It's design as translation, where instinct becomes identity, and aesthetics tell the truth of who you are.

I am beyond *thrilled* with my new branding and website and I feel like *investing in Lara* was one of the best decisions I've made for my career.

Lara has a keen eye for detail and a precise viewpoint that elevates and creates timeless branding for her clients. She took the time to get to know me as an artist and a business owner, translating my vision through her creative lens, into a truly beautiful and distinctive design. Through each step of the process I felt supported and whenever I had questions or feedback, she was always available and prompt. It is a joy to work with her.

Thank you for making EPH the brand I've been dreaming of. <3

I had a *phenomenal*
experience with the studio.
My experience with Lara
exceeded my expectations.

Lara was professional, punctual, and personable when designing the branding for my company. She demonstrated her expertise in high-quality design and craftsmanship, and she was thorough in laying out the package expectations and deliverables.

Through this experience, I've truly appreciated how thorough Lara has been in understanding my target audience and the different layers of my brand. She showcased all of that through a beautiful logo design, color palette, and overall branding.

I value her professionalism and exceptional eye for design. She not only captured the essence of my brand but also brought a fresh and unique perspective to it. Her ability to understand and translate my vision into a cohesive brand identity was impressive. I would gladly work with her again on future projects.

WHAT ARE THE NEXT STEPS?

Every collaboration begins with a conversation, one that’s built on *curiosity, clarity, and connection*.

Whether you’re ready to book a full project or simply exploring what’s possible, this is where we begin to shape what’s next.

You can reach out directly [BY EMAIL](#) to share a few details about your brand and goals, or book a quick Zoom call if you’d like to talk things through in real time. We’ll discuss your vision, answer any questions, and make sure you have everything you need to move forward with confidence. When you’re ready, we’ll refine the details, confirm your package, and reserve your project date in the studio calendar.

We had an *amazing experience* with you and frequently talk about how *happy we are* that we made the investment.

What you created has already made our lives so much easier and I'm kicking myself for not doing something like this for my other business earlier on.

Working with Lara is so comfortable and easy. She has already thought of every question and detail that a brand or business owner might prioritize and has a system for making sure everyone is on the same page - she is extremely efficient and clear about timelines, expectations, pricing, and more. You are never left feeling uncertain about what you are getting or how long anything will take. You can tell from the very beginning that she cares about the success of your brand as a whole.

Her work is very thoughtful and detailed and she does a great job of explaining the why behind every tiny detail she selected or created. Everything she creates is rooted in the values and priorities you communicate as a brand owner at the beginning. Thank you so much!

HELLO, IT'S NICE TO MEET YOU.

I'm the creative mind behind Lara Scarr Design,
where *strategy* and *storytelling* meet *quiet
sophistication*. With a decade of experience in
visual design, psychology and brand development.
I help businesses create the kind of identity that
people *feel*, not *just see*.

My approach is guided by empathy, creativity, and an eye for
refined detail. I believe design should feel effortless yet intelligent,
thoughtful enough to tell your story, and beautiful enough to stop
people in their tracks. If you're ready to build something that feels
like you, I'd love to connect. Build a purposeful brand with someone
who believes in your vision and is in your corner!

With Gratitude
