A *Luxury* Experience

From Start To Finish

HELLO & *Welcome* to our BRIDE & GROOM - TO - BE

Let me first and foremost congratulate you on your engagement! If we haven't heard it already, we are eager to hear your proposal story! This is such a fun and exciting time for you both. Even though your heads may be spinning with all there is to plan, remember to take the time to enjoy these precious moments. Your actual wedding day is over in the blink of an eye, so the planning process should be treated with as much love and attention as your big day.

Our goal as a wedding photographers is to make this aspect of the planning process easy and fun. We want photography to be a part of your day; NOT time away from your day. Your wedding pictures are far more than a gallery of images. They are meant to be an entire experience. They are meant to tell the story of the day; a story you yourself are unable to see.

The Kaitlin Noel Wedding Experience offers our clients so much more than just an end result of pretty images. We hope we get the chance to become friends and remain a part of each other's lives. After all, if you book your wedding with Kaitlin Noel and Co., you both will be welcomed to an exclusive family filled with radiant and spirited couples such as yourselves.

Please take a look through this Investment Guide. In this guide you will find our pricing and some of the exclusive products we offer only to our wedding clients. From there, let's get together and talk all things wedding. We promise it will be fun and we can't wait to meet you both!

Everything about weddings makes us fall in love. From the romantic music, the glow of candles upon the tables, the soft sobs throughout the vows, to the clinging of knives against the thin rim of the champagne glasses signaling the new Mr. & Mrs.'s to kiss. We have always loved being guests at weddings, but now having the honor and privilege to capture them, it is an amazing feeling. You deserve to have every priceless moment of your day captured. Every detail.

Your wedding day is an experience from the beginning of the day to the end, and photography, is a huge part of your wedding day experience. Don't you want to look back and say you had FUN taking your wedding day images? That the time spent taking them was a pleasurable and natural experience that went with the flow of your day as opposed to time away from it? We would like to think that your answer to these questions is "YES!" So, with that said, know that our goal on wedding day is to help create a wedding photography experience that you will cherish for generations to come.

PHILOSOPHY & *Method*

We pride ourselves on being not just your photographer, but your friend as well. When you become a Kaitlin Noel couple, you are treated as family. Prepare to be spoiled. Prepare to be loved on. Prepare for US to be the one contacting YOU for updated plans. Your wedding is the farthest thing from “another date” in the books for me. Each wedding and every couple is held close to my heart and is treated as the priceless day it is.

Our first chance to get to know each other after the consult will be during your engagement session. This will allow you to get comfortable behind the lens and for me to watch how you two interact and get a feel for your personalities as a couple. By the time the wedding day is here, our clients are our friends. Our Family. They trust us. They feel confident. They are relaxed. And most importantly, they are enjoying themselves and their day instead of worrying about where we are and what I am doing. We hope my methods give you an idea of who we are, how we handle a wedding day and how your wedding experience with us goes far beyond the delivery of pretty images. Remember, your wedding photography will be PART of your day, NOT time away from it.

Thank you for your service
MILITARY, POLICE & FIRE
