

**3 SIMPLE STEPS TO IMPROVE THE
HEALTH OF YOUR PATIENTS**

- 1. Complete referral form**
- 2. Fax**
- 3. We take care of the rest!**

Medicare Referral Form. Medicare provides coverage of Medical Nutrition Therapy (MNT) for beneficiaries diagnosed with diabetes or renal disease (Stages 3, 4 and 5 include a GFR that meets the Medicare Part B regulations for medical nutrition therapy services. Some, but not all, patients with stage 5 CKD may qualify for MNT).

Please complete along with MAIN REFERRAL FORM and fax to 808-663-0321

Diabetes: Diabetes mellitus, is defined as a condition of abnormal glucose metabolism diagnosed using the following criteria: A fasting blood glucose greater than or equal to 126 mg/dL on two different occasions; A 2-hour post-glucose challenge greater than or equal to 200 mg/dL on two different occasions; or A random glucose test over 200 mg/ dL for a person with symptoms of uncontrolled diabetes.

**MNT provided by a Registered Dietitian may result in improved diabetes and renal disease management and other health outcomes and may help delay disease progression.
