Immediately after booking, you will receive information on scheduling your Consultation Call. If you need to reschedule, please contact me at least 24 hours in advance.

02. CONSULTATION CALL

On this call, we'll discuss all the details that will make your portrait session perfect. We'll review potential styling and venue choices to amplify your personal vision for the shoot, and cover any questions you may have.

03. PLANNING STAGE

During the planning stage, we work together to bring your dream into reality. We'll collaborate through a private mood board on Pinterest where we can share inspiring images that help hone your look. We'll cover hair, makeup, and styling, and I'll share images of the gorgeous maternity gowns available for your shoot.

04. PRE-SHOOT CALL

48 hours before your photoshoot, we'll have one last call to go over details and what to expect. We'll review any items that must be brought with you, and confirm arrival times. Any necessary adjustments due to weather may be made at this time.
