

Having been in the food industry for more than two decades, now seems the right time to deliver a cookbook that showcases what's possible with the foods we sell at Reach My Kitchen. These recipes provide an insider's grasp of making the best of the premium seafood, meats and dairy foods that you can find in our shop.

If cooking is your passion, you'll appreciate what our in-house culinary chef has put together. These recipes take you on an adventure using fresh produce from the shrimp farms of South East Asia to those responsibly sourced from the icy cold seas surrounding Antarctica and beyond.

Boost your culinary know-how and experience the magic that comes from seducing your guests' tastebuds, creating the treasured memories that are at the heart of every good relationship.

In the last few years, word of Reach My Kitchen has spread rapidly throughout the hospitality and restaurant sectors of London, Nice, Dubai, Monaco and Riyadh. The next few years will see us expand to Madrid, Paris, Marrakech and Miami, amongst others.

There's simply no substitute for dedication, which is how we built and now maintain our reputation for uncompromising quality, food safety, responsible sourcing and exceptional client service.

Don't just take our word for it. Discover our products as you create these explosions of taste from the earth's finest ingredients.
