## Description & Goals of the Trip

Build a multi-purpose outdoor shelter for the church to use in reaching their community. Restore and protect the property with a secure fence and repair of a damaged roof. Vacation Bible School for 70+ children. Door-to-door evangelism using water filtration systems as a way to open Gospel conversations. Introduce families and children to the Gospel through a movie night and refreshments.

## Accomplishing the Great Commission

This trip shares the Gospel through service, community outreach, and relationships. By helping with construction, investing in children, and supporting the local church, we will show Christ's love in practical ways. Meeting physical needs will open the door to meeting spiritual needs and set the church up for long-term discipleship opportunities for years to come.

## Long-Term Partnership

The church we are working with is called, "Iglesia Bautista Vida Eterna" (Eternal Life Baptist Church). This trip aims to accomplish specific one-time goals with long-term impact. Our leaders have a relationship with the Pastor at this church that could provide opportunities to work together on future projects that build on this one.
