HISTORY /

I'm Angela, the designer, creator and heart behind Saffron Avenue. Back in 2009 I created a blog called 'Witty and in Love', it was my creative outlet for weddings inspiration and creative color pairings. Within two years, that blog transformed into Saffron Avenue, a space where I shared my love art, lettering, design and all things branding.

In 2012, Saffron Avenue was official. I fell hard for branding and website design and knew creating from the heart was my magic sauce. With a love of detail, sketching, and creating designs that pushed the envelope, I found my happy place.

For the last 10+ years I've built my company with integrity and intention and have a mission to never stop creating and never stop learning.

MISSION /

I believe that each design, brand and website deserves to feel unique, to have a custom touch, to feel balanced and to be created with intention. My goal for each client is to feel confident. To walk away with a brand or website that finally reflects who they are, who they are attracting and who they want to become. To build long-term relationships with trust, honesty and some laughter inbetween :)

A CLIENT *and* THEIR DESIGN NEEDS

We specialize in curating custom and heartfelt brands and websites for creative entrepreneurs. We believe in strategy, high-end simplicity and intentional detail that builds brand trust.

Design has the power to change consumer behavior, it has the ability to inspire how we feel and react emotionally. The purpose is to provide insight on how to align intentional design with the end goal. To connect the strategy with the visual. To execute creatively. To design from the heart.

<p><i>THRILLED!! Angela has done my website twice now, once on Wordpress and our newest one on Showit - her eye for detail is incredible and we actually fired a designer who couldn't capture my vision - she nailed it both times and I am so grateful for what she has done with our brand.</i></p>	<p><i>Angela provides the full package. Every step of the way was intentional, organized, detailed and well-communicated. She truly cares about brands and helping her clients create an intentional website for their audience (with a great user experience), not just a pretty one.</i></p>	<p><i>Saffron Avenue is THE BEST. Everything she does is magical. - I am so grateful for Angela, and I am so, so honored to have gotten to work with her directly, truly a profound highlight. Thank you for making the blog and shop so much better than I ever could.</i></p>

THE PROCESS

The process starts with understanding who you're marketing to and how to position your brand within the market.

DEFINITION

01

WORKBOOK

We need to get to the bottom of who you are, what you stand for and who you stand beside. You'll fill out the comprehensive workbook

02

RESEARCH

We try to think outside the box and come up with something that isn't obvious. We will use your inspiration & workbook to guide us.

03

COLOR

From the above, we'll curate a color palette and a visual inspiration board to provide direction and an overall style & aesthetic

04

CONCEPTS

We'll use the inspiration and your direction to create and design 4 different logo options to present to you.

05

BRAND

After finalzing the logo option, we'll build out your brand board. This will include the secondary logo, monogram, elements, etc.

06

GUIDELINES

We'll create your brand guidelines presentation for you to understand how to use your logo & brand elements.

07

EXTRAS

From there we will design the remaining brand pieces. From stationery, social templates, packaging, etc. Based on your needs.

SERVICES

Website transferring, domain/hosting/ email setup, and support are all charged separately and not included in the package. Saffron Avenue is not resonsible for website downtime or hosting. Additional design items require a custom quote (ie: additional pages, e-commerce, e-course, etc).

06	TUTORIAL & TEST / You'll receive a one hour skype tutorial to walk you through your site and how to use it. We will also dedicate time to test the site completely and activat a coming soon page for launch.
07	THE LAUNCH / Once design has been finalized and final payment made your site will be implemented into your showit account and you can start your launch countdown!

FAQS

QUESTIONS AND ANSWERS			
WHAT IF I'M NOT SURE ABOUT THE DAESIGN OR THE STRATEGY?	<p>If you aren't sure about the design or the strategy, then let me know! I'll provide you with tips on feedback and talk through why I designed something a particular way or why your strategy is the way it is. I want you to feel confident and excited about your project. If something doesn't feel right about it, then let's work together to find a solution that works.</p>	WHAT HAPPENS AFTER DEVELOPING MY BRAND?	<p>Creating the brand is really just the start of it all. Your branding will need a lot of collateral like a website, business cards, packaging, social templates, etc. We will provid you everything listed under the brand package, but can offer you so much more. If you need help with packaging or even sales page design, let us know!</p>
WHAT EXACTLY IS BRANDING?	<p>Branding is more than a logo and a clever tagline. Your brand tells the story of your company. It's your message and your values. Branding is when all of the different elements like your logo, social media posts, and marketing materials all tell the same story consistently. And when that happens, remarkable things occur.</p>	HOW LONG WILL IT TAKE TO MAKE MY WEBSITE?	<p>It really just depends on your brand and on the site. No two websites are exactly the same. We always work with your timeline. After we meet and talk about all of the details of your project, we can give you a realistic timeline for your project. Most custom sites take from 4-6+ weeks.</p>
WHAT'S THE DIFFERENCE BETWEEN A LOGO AND A BRAND?	<p>Your logo is a graphic or typographic symbol that identifies your company. A logo is part of your company's brand identity. It represents part of your brand's story, but it certainly isn't the only part of the story.</p>	WILL I BE ABLE TO EDIT MY WEBSITE?	<p>We use the showit content management platform to build your website, which means when we're done, you'll be able to make edits to the content. It's a drag-and-drop website builder that allows you to design without having to deal with backend coding and development. It gives you total freedom to create and to maintain your web presence. It's great for a variety of informational type websites.</p>
HOW MUCH SHOULD I EXPECT TO PAY FOR MY NEW WEBSITE PLATFORM?	<p>Showit has 3 pricing options, I recommend the 2nd or 3rd which is around \$24/month. This is for the website HOSTING. You'll need to make sure your DOMAIN and EMAIL are setup elsewher. We personally recommend either Google or Hover for domain and email.</p>	WHAT IF I NEED MORE THAN THE 6-8 WEBSITE PAGES?	<p>That's just fine! Before we send you the full estimate we will discuss your website needs. If that includes a sales page, a small 3rd party shop, a plugin customized, etc. Those will be priced separately and can be added to your proposal.</p>
