

FAMILY FORMAL TEMPLATE

Use this as a guide to develop your own wedding day family formal list. This list as written will take approximately 30 minutes to achieve as long as all parties are close by once photography begins. This is just a template so please replace bride/groom with appropriate terms for same sex couples. Add approximately ten minutes for each set of divorced parents who want their own set of formal photographs. We love adding family groupings, but please allow 15-20 minutes when adding a few larger extended family groupings. We will need time to arrange family members for each grouping so we get it right.
