

DR. RONI ELLINGTON

SPEAKER | EDUCATION THOUGHT LEADER | PROFESSIONAL LIFE COACH | SPIRITUAL PRACTITIONER

Mathematics education professor, inspirational speaker, executive coach, and STEM education scholar and mentor, Dr. Roni Ellington has spent the last 18 years cultivating her undeniable talent as a teacher, speaker, scholar and personal development expert. Trained as a mathematics educator and life coach, Dr. Roni knows firsthand how to help people get clear and achieve excellence despite the challenges they face. Her work is grounded in the philosophy that we are all winners and can do anything we choose, even the hard stuff. She draws on her humble beginnings as a student that was placed in low track classes until one of her teachers realized that she could succeed in more rigorous courses. When she moved into the advanced classes in the 8th grade, she realized her own genius, which was cultivated by caring adults and teachers. The rest is history! She graduated valedictorian of her high school class and was awarded a full scholarship to study mathematics at Morgan State University, earned her Master's in Mathematics and a PhD in Mathematics Education. Now she is on a mission to encourage others to excel in their lives and realize their dreams.

Often referred to as the inner clarity expert, Dr. Roni's belief is: You are NEVER really confused. You always know what's in your best interest; you just have to get out of your own way to see it. Dr. Roni is laser sharp at asking the questions that give you the space and open the door for you to actually acknowledge what you already know but don't see. Clarity is the ultimate transformative experience; it is true perception that actually empowers you to get what you want. When you get clear, you can get moving and get unprecedented results in your life.

Dr. Roni was featured as a TEDx Baltimore Speaker in 2013 and her moving and thought-provoking talk on the future of STEM education was so well received that she was highlighted as one of the featured speakers on the TEDx website. Her authenticity, wisdom, and straight talk about what is needed to transform STEM education inspired a standing ovation.

THE TRANSFORMATIONAL GAME CHANGER, THOUGHT LEADER AND LIFE DESIGNER

IMPACT

The Inner Clarity Expert helped me to design a marketing message that was so precise it increased my client attraction by 55% – S. Rasheem

The process made me aware of the big defaults I had and set me up on a plane of bliss that was centered in my own happiness and fulfillment. My victory is in telling my truth and in letting down my guard. I am so grateful for Roni's intense and loving BS meter. It was laser sharp and cleared the field for some real work to get done.- E. Kenney

This experience has been tremendous and life changing. Roni held me accountable in a very real and supportive way. Roni took a genuine interest in my development as she led me to uncover my default, live life by design, and ensure I have a strong support structure beyond the time of the formal tele-seminar. It's so worth it, thank you! –C. Hendrickson

ABOUT EVÓK

Evók is a well-being company. Emphasis on BEING. Being Well. Being Whole. Being YOU. We're here to lead the conversation on well-being and shift it from life hacks and wellness activities to self-actualization and the power of personal freedom and fulfillment. Our mission is to free up women to transform the world. Our message... Being is the New Doing. You're doing too much. We design transformational products for people who are losing a vital part of their life to dissatisfaction and burnout and want to live with purpose, increase their intention, and experience what it's like to own your time and energy.
