"He went above and beyond for us and was always so energetic! We felt a connection with him instantly. My husband and I were so nervous and he made us feel like we were just on a date night. He made magic on a rainy, cold, November day and we will forever be grateful for him. We are now forever friends!"

client / quote

# HEY THERE!

I've spent so much time behind a camera pointed at many different things, but no adventure can ever compare to a love story.

You've spent so much time with your soulmate - the one you'll soon commit a lifetime with. Your deep and unique connection with one another deserves more than plain and cookie cutter photos that aren't true to who you are.

I'll climb mountains with you for the shot that fits who you are. I'll dance with you and your guests because that's where the best photos are - in the middle of the action, and I'm more than likely cry at your wedding!

This love is fun. It's adventerous, exciting and still gives you butterflies. I'm a firm believer that your photographs should give you those same feelings even I still get them myself on every single session.

Enjoy this guide! Hopefully it helps make your life easier when planning for your weding day. I look forward to talking soon!

- Marshall

### WHY Marshall Scott Photography?

Do you want to attend your own wedding? I've seen too many make the day about what they want for their portfolio and neglect the real moments happening right in front of them.

Over the years l've refined my approach to emphasize keeping you mindful on your wedding day. Through gentle posing in a way that lets you interact with one another as if you were on a date, the camera fades into the background, letting you focus on what really matters. You're investing time and love preparing for this one day, and l'm here to make sure you enjoy each moment without distraction.

I don't want you to remember me when you look at your photographs. I want you to remember how you felt in the real moments that happened on their own with your soulmate.

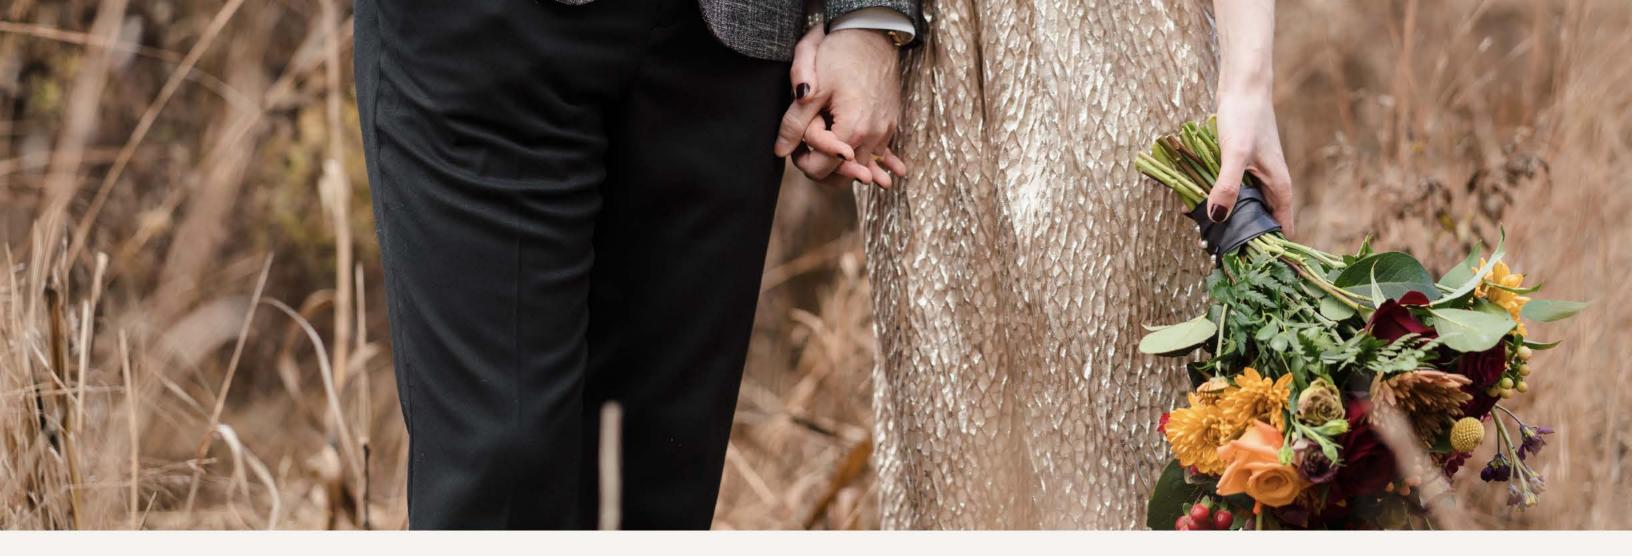

## COLLECTION FEATURES

As we prepare for a consult to get you more information specific to your wedding day, here is a breakdown of the most popular and loved wedding photography experiences and what role they play in how the process works!

You may have considered some of these already! I'm excited to learn more about you both and talk about your vision, and how these can play a role in enhancing your love story.

## THE WEDDING EXPERIENCE

#### Second Photographer

Imagine your favorite TV show or movie. It's still great without the extended edition/deleted scenes, but having them makes it so much more enjoyable. Second shooters aren't just there as a backup or to be in two places at once, they're there to look at everything I'm not. If I'm focused on your dance, they're capturing a loved one tearing up. They're capturing candids while I'm shooting family formals. I can still get the movie, but a second allows you to have all that bonus content that you'll be so glad you have looking back.

#### Engagement Session

It's not uncommon to assume this is to announce you've been engaged, but these sessions are all about you in a way you've never thought of. It's a time to let loose and get creative. Want epic photos at a waterfall in another state? I'm there. An arcade with pizza and beer afterwards? Let's do it. These are photos that are truly unique and often times become some of the most treasured photos my clients have. More on that in the next page!

#### Anniversary/Day After Sessions

Anniversary sessions are an amazing way to relive this experience, & day after sessions are just as incredible. A few days after your wedding we get back in your tux & dress and go somewhere incredible for more portraits! On the wedding day you're limited in time and location choice, but in a day after session you can go all out. Maybe you dreamed of eloping under a waterfall or in a forest surrounded by pines. Here's your chance to get the best of both!

### ALBUMS Because your photos aren't preserved until they're printed.

I cried the first time I held a printed photo I took. I cried harder the first time I held one that was taken of me and my loved ones. There's an incredible emotional response that happens when you hold memories in your hands -

#### This is where your photos become real.

These albums are carefully and intentionally designed to bring you back to the wedding day for an experience that looking at the pictures on your phone just isn't capable of!

This isn't your typical generic wedding album; these are hand crafted, thoughtfully designed works of art. I believe so firmly in you experiencing this album that l've taken on a lead album designer to work closely with all MSP clients to make sure:

#### This is something you're proud to put on display.

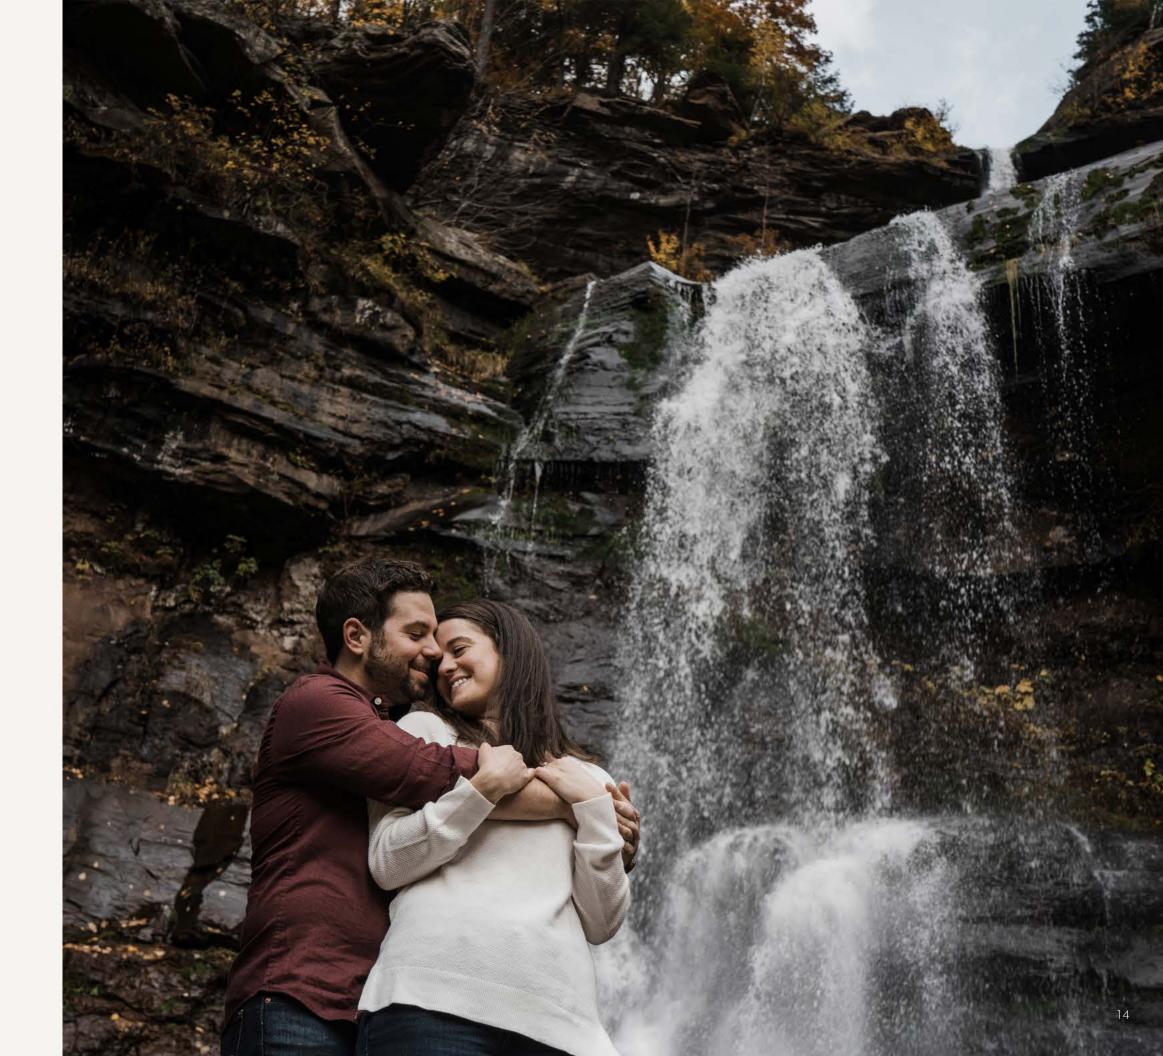

Luxuriously bound in leather with thick, robust lay-flat pages, you can be sure this album will stand the test of time, ensuring that generations to come will be able to live your story as well as you will. This is your personal time machine right back to moments with those you love most.

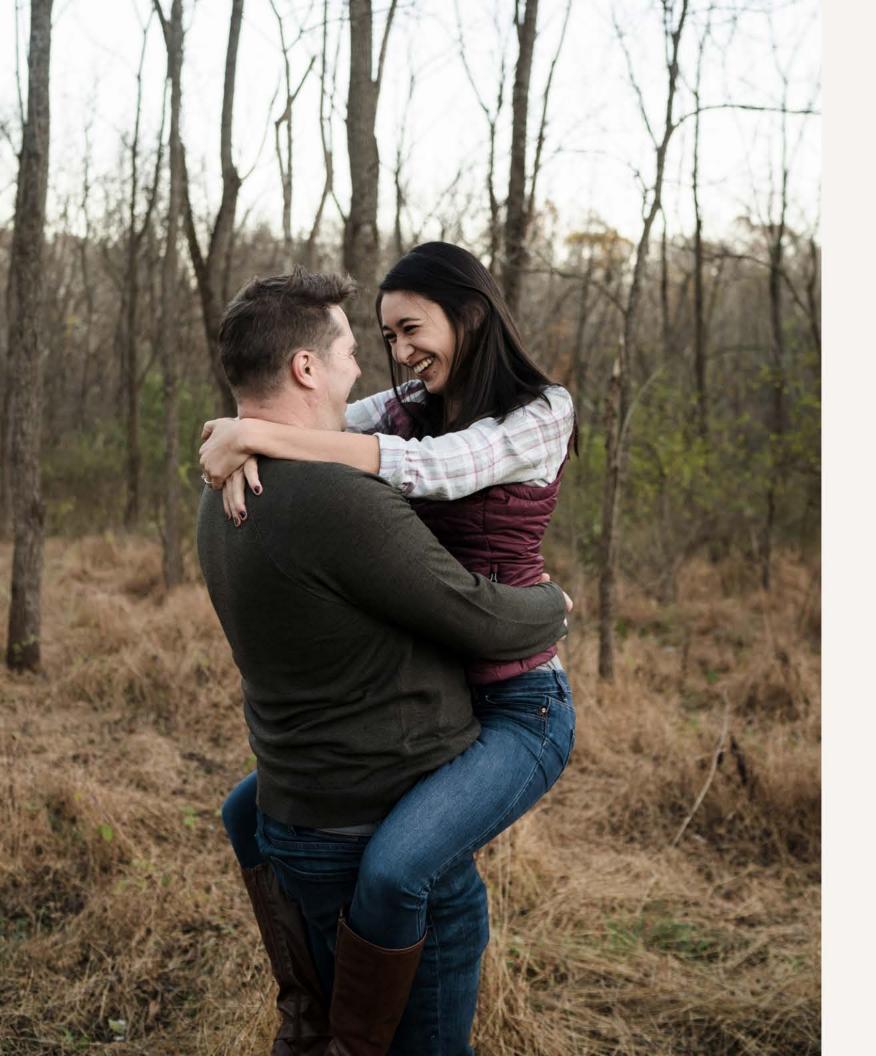

## ENGAGEMENT SESSION

## Expert advice for an effortless experience.

What do I do with my hands? What do | wear?! | get it! Getting your photo taken can feel intimidating, and I've heard the same phrase from every one of my couples - "We are the most awkward people in front of a camera". I promise you, every photo you've seen from me so far has been from people who've said that exact phrase. Do they look awkward to you here? Not one bit, and you won't either! Since most of my couples choose a package with an engagement session in it, the next two pages will have some of the best tips on how to get the most out of this incredible experience. If you have any other questions I would love to answer them during our consultation!

## 01 / Choose a location that means something to you!

It doesn't matter if that's a National Park or your living room couch (these intimate sessions are just as amazing!) What matters is that you're in an environment that's special to the both of you. Maybe you had your first date on a hike, so we'll hike. Perhaps you've both always wanted to see a waterfall in the Catskills of upstate New York. In any case, I'm there. When you're in a place that has meaning to you, you're going to feel so relaxed and comfortalbe. Plus, what better way to document your love story than showing you both doing something you love to do!

### 02 / It's okay to be nervous

What you interpret as awkward in front of the camera never comes across that way! While you're laughing at how crazy you two feel on this session, I'm capturing that REAL, genuine laughter. No stiff, awkward posing or forced prompts like "now give me a big laugh!". Not here. Within a few moments you're already comfortable, the nerves quickly fade away and this becomes one of the most fun date adventures you've ever had. I can't wait to capture you both in a way that you never thought possible.

### 03 / What poses should I remember?

None! A big reason my couples hire me is the focus on genuine and real connection. If you're focusing on how to stand or what you do with your hands, that's what you're going to remember when you see your photos. Instead, I'm going to gently pose you in a way that feels natural and comfortable so you'll have no issue diving right into the moment. The only thing you should be focusing on is your partner and the wonderful experience you'll have together!

#### 04 / Are you pet friendly?

I highly encourage you to bring your fur family members along with you on this session if you want them! I do suggest bringing someone along with you to hold on to your pup if you want some shots without them!

#### 05 / What should we wear?

Coordinate but don't match! These are much more fun & relaxed than pictures at JCPenny, so wear something you'll love to see yourself in! Don't forget to bring a change of clothes if you want to get 2 different looks out of this session, it's a great way to get a mix of casual/relaxed and glamorous/stunning if you're torn between the two!

"I wouldn't call myself a model but I definitely felt like one in his breathtaking photography, and the pictures speak for themselves. Marshall you outdid yourself. Thank you from the bottom of our hearts!"

client / quote

## THE WEDDING DAY

Tips for planning a stress-free, relaxed wedding day.

Wedding planning can feel overwhelming at first, but I'm here to help! I have a lot of experience not only shooting weddings over the years, but helping all of my couples plan as well. This experience is your playbook, and I'm here to help you every step of the way!

Though each wedding is different and your vision is unique to you, there are a few core things that you can do to make sure this process is far from stressful and a lot of fun! Watching your vision come together over time is an amazing experience, and it's one that I'm thankful I get to experience with my couples.

If you have any other questions about planning a wedding, don't hesitate to reach out! I'm here to help and make sure this adventure is the best one you've ever been on.

#### 01 / Book vendors ASAP!

Not just because they're filling up their books faster than you think, but once you have most or all of your vendors checked off a massive weight is taken off of you. You won't be worrying about how things will come together or if people will be available for your date, instead you'll rest easy knowing you have a team of professionals who care about you and your vision and will make sure that it happens. Don't miss out on locking in a vendor you know you want!

### 02 / Indulge on the things you care most about.

Seriously, go all out for the things you know mean the most to you. Chances are there are 2-3 main parts of your wedding day that you know you want the best for, and if you don't book them you're probably going to wish you did. These are usually the things that matter most: The right make-up artist whose team makes the morning fun and relaxed, the perfect planner who keeps you stress free, a photographer who keeps you comfortable and documents it all to see for generations. Whatever it is, you deserve the peace of mind that allows you to focus on nothing other than your loved ones when the big day is here. Don't settle for less!

### O3 / Design the day around keeping you both involved.

In the same way I appraoch shooting weddings to keep you focused each other, design the details of the day to make sure you get to enjoy it each step of the way. Whether that's by opting for a first look so you get to enjoy cocktail hour or having an **experienced pair of eyes** work with you for your timeline (Hi there!), we'll make sure this adventure flows beautifully.

### 04 / Feel free to ignore the trends!

Don't be afraid to say no and be non-traditional! I highly encourage my couples to ditch trends that they don't vibe with, and instead get creative and do something that excites you. This day is about you, so don't feel pressured to conform to traditions everyone else is doing; do what you love.

### 05 / Trust your gut!

If it feels right, go for it! If you and a vendor click or a detail just makes sense, don't hesitate! Chances are you're just going to get more and more pumped during this process feeling confident that you and your partner are set for an amazing day.

# LOVE NOTES

My couples are amazing. Here's what they have to say.

Every story is unique. It sounds cliché, but it's so true, and every step of the way I make sure that I learn yours in a way that allows me to capture romance in a raw and emotional way that you can look back on and feel over and over again.

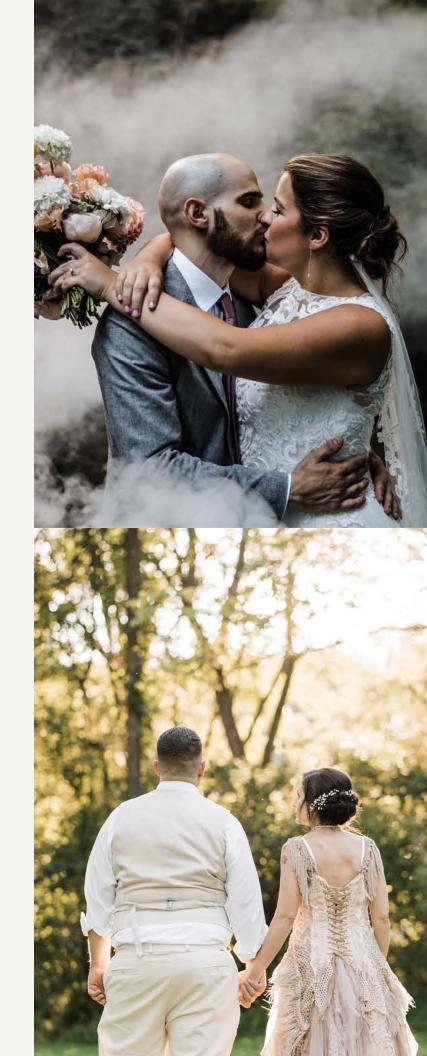

### Maria and Alan

"Where do I even begin?

Marshall has been nothing but AMAZING! We hired Marshall as our wedding photographer and included in the package was an engagement session. We just received our photos yesterday... HAPPY TEARS! Alan and I could not stop staring at how beautiful he made our little family look. Can I just say that this was just our engagement session. Marshall has been nothing but professional, friendly, warm and was just one of the easiest person we've ever spoke to when it came to our wedding planning. We cannot wait for the big day!

### Briana and Stephen

The best there is. If you're looking to have moments captured, you'd be making a huge mistake if you went with anyone other than him. With Him, you're going to get someone who truly cares about you and capturing your relationship, the moment, the genuine feelings .. You're going to get someone who will have fun doing your shoot and become your friend, even afterwards. He takes being personable to another level. You can find "photographers" anywhere. They'll get pictures done quick and cheap, but you can't find someone like Marshall. His work speaks for itself. I realized he was the most talented photographer l've ever seen, but immediately I also noticed his personality was a selling point as well. He truly is one of the nicest, most caring individuals. His style, will capture any shot. His creativity will blow you away when you see what he has in mind. I am so grateful he was able to shoot my wedding just this past week. Thank you Marshall, for everything.

#### Erin and Andrew

From the moment we spoke to Marshall we were blown away with his kindness, professionalism and knowledge. Within minutes of meeting him it was like we were old pals just getting together. I am NOT photogenic and truly not comfortable with my photo being taken, but he was able to meet me where I was at. He made us feel comfortable and did not try to change anything about how we interact as a couple. He drew out genuine emotion from us and somehow magically translated it into the most breathtaking photos I have ever seen. Marshall took all my nerves away & gave the most amazing experience from beginning to end. I have prints from my wedding hanging in the living room and each time I catch a alimpse of them I am grateful all over for meeting Marshall and hiring him. I recommend him wholeheartedly to anyone who relates to my story, or just wants stunning photos. I am thankful to now call him a friend!

#### Cathy and Khris

#### LOVE LOVE LOVE!!!!

We used Marshall for our elopement and wanted to capture every part of our day, especially since we didn't have our family and friends with us to experience it all for themselves. Marshall got everything!! He was so professional yet so much fun!! Set us at ease within seconds of meeting him! We felt so comfortable, it wasn't like a stranger asking us to pose and us being a little awkward about it. We laughed, got silly, drifted into moments of love and seriousness and Marshall captured It all - every mood, everything we wanted! He sent us sneak peeks the next day to help us announce that we had eloped! Our full set of pictures were back within a few days! I honestly can't say enough how pleased we are! Marshall, thank you so much!! From the bottom of our hearts! These pictures will be our forever memories of our special day and I'm so happy we found you to capture it all for us!! XOXOXO

### 01 / Have you shot at my venue before?

I'm excited either way! I'm just as comfortable in new venues as we are in those we've been to many times. There's something so magical when we as creatives get to be in a new place with new inspiration. The refreshing change of scenery and location can often be the spark for some of the most creative work!

When the big day is here, it's the moments with you and your loved ones that make the photos, the location is just a bonus!

### 02 / How many hours are your packages?

You won't find hourly packages here, every single collection comes with All Day Coverage. To me, hourly packages feel like taking your favorite movie and removing the first and last half hour. It's just not the same. You're going to get to relive every moment up until the very last dance after most have already left. Now THAT'S a complete story.

### 03 / What if I elope?

Elopements & microweddings have hourly pricing! Inquire to learn more!

#### 04 / What style of Photography do you have?

My shooting style is gently posed with an emphasis on real moments and candids, while my editing style is very true to life. Some of my work is dramatic, and some is lighter. I personally don't believe in throwing one blanket edit across all my work; I edit each photo to bring out the best in the moment captured in that specific image. When you blanket everything under one "style", you end up sacrificing some moments for the sake of calling your work "light and airy" or "dark and moody". My work is focused on you and each moment.

### 05 / How do you deliver the photos?

Your final edits for both the engagement session and wedding day are delivered in a shareable online gallery! It's a convenient way to view, share and even order prints/wall art from your gallery. This is a total upgrade from the oldschool USB sticks that can so easily get misplaced and become a pain to share the photos with friends and family. The gallery downloads a zip file exactly like I would put on a USB stick, and can be downloaded as many times as you need. If you want friends or family to see your memories, just send them the gallery link and they'll be able to enjoy they within seconds.

### 06 / What is your turnaround time?

3 weeks after your wedding date! You read that correctly, you shouldn't have to wait months on end for your wedding photos. This is my full time passion, so delivery times will reflect that to make sure you get to enjoy reliving your romance story all over again before too long.

#### 07 / Do you travel?

Yes! I love travelling equally as much as I love shooting. I currently have weddings on the books from the here all the way out to the west coast. I'm willing to go anywhere in the world that fits your vision, whether that looks like venturing a few hours north for waterfalls on your engagement session or the cliffs of Moher in Ireland for your elopement, I'm there.

### 08 / Do you have any more reviews?

I do! There are so many more 5 Star reviews on Google, The Knot and Wedding Wire, Philly in love etc. Head to one of those places and see what my couples have to say!

## NEXT STEP:

### SCHEDULE A CONSULTATION!

During our consultation we'll be able to get to know one another better and talk about the details surrounding the day, giving you a better idea of what you can expect!

I am beyond stoked to get to know you and learn more about the vision you have for your big day. If you're reading this before we've had a chance to connect, you can absolutely give me a call or shoot me a text to get to me sooner! I hope this guide has been useful to you. I'm eager to be on this adventure with you.
