

BEEHAVEN FLOWER FARM

Planning Your Wedding Flowers Guide

est. 2007

HELLO *and* WELCOME

I am so glad you are considering using BeeHaven Flower Farm as your source for locally grown, farm-fresh flowers. We specialize in creating custom designs from our garden-grown blooms that are memorable and gorgeous.

We grow over 150 varieties of flowers and foliage throughout the season. I encourage you to think of style and colors when envisioning your wedding flowers, rather than particular flowers. This will leave space for creativity, and what the season is offering. We'll have a unique, one-of-a-kind variety to pull your "look" together.

The following pages will explain our process and support you as you plan and decide where you would like flowers for your wedding.

Paula Rice

OUR PROCESS

As a grower and florist, I work on the farm ————— and in the studio in time blocks. My online approach to ordering wedding flowers allows me to work efficiently and get all the work done. It is meant to give you information on what to expect and how to plan. Our online process has 2 steps and provides you:

- 1.) An Informational Brochure and Virtual Wedding Calculator in an email to understand what we do, what you would like, and the cost.
- 2.) An opportunity to make an order and book a meeting with me.

It's ok that you may not know all the places you want flowers right now, we understand that things may change. When you move forward by filling out the inquiry form, we can meet and fine-tune all the details.

For now, let's help you create a vision that you can talk about and share...

PLAN

01

What is your style?

Think about who you are and what you love. Do you have any floral experiences or memories that are unique to you? Did you have special moments with grandma in the garden? Maybe it's something cool you saw and remembered. Let this memory shape and inform your style so we can capture and hold it in your memories. (If you are not huge on flowers, then simply let the season inform the design and create something unique and meaningful to remember and cherish..

02

What are your wedding colors?

When using garden-grown blooms, we use a range of tints and tones within your color palette to create your floral arrangements. For instance, if your color palette is burgundy with whites and foliage, I will source flowers in the tints and tones of those colors to blend and "marry" all the colors. That is part of BeeHaven's signature style, it provides more interest and beauty.

03

Start an inspiration board.

Gather ideas as you see things you like and build a Pinterest board or document to capture and share your ideas. Do not limit your board to just flowers. Include textures and things you like to build an overall "mood." A theme and style will start to appear and pull your look together.

04

Make a list of the places you want flowers.

Start to envision your wedding day by choosing all the places you would like to have flowers and make a list. Following is a document listing all the possible areas you may want flowers.

FAQ

When should I place my order?

Place your order as soon as you feel confident you would like to work with us, even if it is a year in advance. Once we are "booked" for a day, we can no longer accept other orders. We have a convenient payment plan from the time you book to a month before your wedding, making your wedding florals affordable. The sooner you complete the form and receive our Informational brochure & Wedding Package Builder, the sooner you will have all the information you need to make a decision and order flowers.

How do I make an order

When you submit the Wedding Inquiry Form on the website or click the link on the next page, we check the availability date of your wedding. If we are available, you will receive the 1st of two brochures. The first is information with the opportunity for you to discover what your flowers may cost. The second is where you build your custom wedding package, book your wedding date, and set up a meeting to finalize details.

What if I need to make changes to my order?

There will likely be some adjustments to your order. When you build your wedding package and make the 25% downpayment, you are booked on our calendar, and we will have a meeting to make any adjustments and fine-tune details. Furthermore, 35 days before your wedding, we will finalize details for the last time and make adjustments before the final payment..

INQUIRE

Click the button below to fill out our inquiry form. We will check the date of your wedding and let you know via e-mail if we have your date available and forward the Informational Guide to Booking Your Wedding Flowers
