

Wedding Budget

WORKBOOK

PART 1: PRIORITIZE

WHY PRIORITIZE??

YAY!! You just got engaged & now its time to plan the wedding of your dreams!! Before even beginning to budget, it's important to build a list of things with your partner that you will likely purchase for your wedding & prioritize those items. This helps so freaking much!! Why?? Because there's this idea of "things that have to be apart of a wedding" & you may find out those things just aren't important to you two at all. Saves you money right there! Also, it helps you understand what you two should invest more money into because you know it's important to you both!

Now that you know why you should do this,
LET'S GET IT!!

HOW THIS WORKS:

There are two identical priority list work pages. Each work page has a list of the typically purchased items, services, & vendors for weddings--& we left blanks for you to fill in items just in case! You & your partner each fill out their own page separately. Rate each item 1-20+ based on the importance to you!

Ex: Your dress is the most important purchase, mark it as a 1. Additionally, cross off items that don't apply to you or you just don't care about!

When you're both finished, compare the two & create a new priority list based on your results.
