

## AIRCRAFT CHECK OUT CHECK LIST / KNOWLEDGE TEST V1.0

<b>Date:</b>	<b>Pilot in Training:</b>
<b>A/C Type:</b>	<b>Instructor:</b>

### All following items must be covered during aircraft checkout

- Pilot familiar with the P.O.H./Owner's Manual/Airplane Flight Manual
- Aircraft Systems
  - Electric system
  - Fuel system
  - Landing Gear / Hydraulic system if applicable
  - Other aircraft specific systems
- Aircraft characteristic Speeds
- Aircraft Fuel Consumption
- Emergency Procedures
- Risk Management
- Preflight Inspection
- Engine and Systems Checks
- Taxi
- Take-Off
- Trim
- Climb
- Level flight
- Slow Flight with Flaps
- Climbs Descents
- Stalls Power On; Power Off; Turning
- Approach and Landing
- Cross Country Planning
- Communications
- SECURING AIRCRAFT AFTER FLIGHT
  
- Completed attached Knowledge Test**

**Airplane Owner's Manual and/or Pilots Operating Handbook Quiz**

Date\_\_\_\_\_

- What is the useable fuel of this aircraft? \_\_\_\_\_
- What is the minimum oil level of this aircraft? \_\_\_\_\_
- What is the gross weight of this aircraft? \_\_\_\_\_
- What is the useful load of this aircraft? \_\_\_\_\_
- What are the V speeds of this aircraft? \_\_\_\_\_
- What are the takeoff and landing speeds of this aircraft? \_\_\_\_\_

○ What would you do in flight if the engine began running rough?

○ What would you do in flight in the case of an engine failure?

○ What would you do in flight in the case of a fire?

○ What would you do in flight in the case of electrical failure?

I have read and understand the Airplane Owner's Manual and/or Pilots Operating Handbook. All questions have been discussed with CFI\_\_\_\_\_. This quiz was reviewed and corrected to 100% before my first solo flight.
