# *What is a wedding day like with me?*

## The big day is here!

You have given me a time table, a most important shot list and of course a list of your most important family members. We don't want to miss any photos with your most important loved ones (we will discuss all of this). I will also be sending you a questionnaire to help you during this time. I arrive where you are getting ready to capture all the emotion and details for you while you get ready to shine!

Any accessories that are super important to you, this is where I'll capture it! I like to capture your hair and makeup as well as everything going on in the room. I'll capture the details of your gorgeous gown and then of course your loved ones helping you get that beauty on.

lets take some photos with your girls and head to your "first look" or wedding ceremony. While I'm with you my second shooter will be with the groom and the guys capturing their moments and heading to the reception to capture all those little details for you!

During the ceremony I will capture as much emotion and detail as I possibly can so you can remember it all. Because it seriously goes way to fast. Let's go off to the family photos.

We want to do the family right after the ceremony so they can go start enjoying your beautiful venue. And these photos are so so so important. If you have a bridal party, thats where we'll go next with all the groomsmen. This part is so much fun, because I want you just to have fun with all your friends while I'm capturing all the connections and smiles between you all! Then I would like a good 45-1 hour with just you guys!

Gives you time to relax and just soak up THAT YOU ARE  
MARRIED!

I will give you some direction of course, but right here I love to capture the love between the 2 of you .

Most couples have speeches during dinner time, and I'm there to capture it all. I am very good at eating and shooting between speeches! I try to stay as invisible as possible, so I sneak around capturing your guests without being in the way. It is much easier for me to have a little table by myself because I came with a lot of gear, this way I'm not disturbing any of your guests! Then I'm right there to capture all of your dances. Now this is where you decide if you want me to stay for reception! The drinking and dancing is so much fun, and of course I can capture all of that for you as well! If you have read this far and we sound like a good match send me an email and lets start planning!

# FAQ

## Can I exchange my engagement session for a different service?

No, the engagement session included in your wedding package is a complementary gift. It has no money value. You can't exchange it for more hours on packages or a different session.

## Why do we get a complementary engagement session?

It's my gift to you for choosing me to capture your big day. It's the perfect way to get to know each other better and feel more comfortable gearing up for the magical day!

## Is a second shooter important?

Yes! So important. Having extra hands, another body and camera in a different place to capture moments makes for a very smooth wedding day. Never a moment missed on such an important day.

## How long is gallery delivery?

8-12 weeks for me to edit and create a magical gallery for you!
