*“He and I met at a Leukemia & Lymphoma meeting and I was immediately drawn to him because of his ideas, amazing attitude and desire to make it easier for others to find resources and access to treatment.”*

*People are gonna be talkin about this Foundation!*

Hip-hop has been a platform for expression, empowerment, and resilience. It speaks the language of the marginalized and amplifies voices that often go unheard. The Health, Hope, & Hip-Hop Foundation harnesses the energy of the Hip-Hop culture to address the health issues weighing on our communities of color.

When it comes to illness and disease, the Black community bears the crushing weight of some staggering health statistics. Many environmental and behavioral factors can contribute to health disparities in any group of individuals including genetics, tobacco use, and diet or eating
