GUIDE

THE DESIGN

Each album is custom designed and you will be consulted every step of the process. I use an online program where you can virtually flip through your album, making comments and revisions page by page.

My custom albums have a modern design using clean templates printed on fine art cotton matte paper using pigment-based inks for long-lasting archival quality. The layflat binding allows for seamless images spanning across a full spread.

All of the cover materials are carefully selected, from a classic book cloth to rich full grain leather, you will find a cover option that speaks to you.

THE COVERS

These timeless albums are crafted with 100% natural leathers and custom bound book cloth.. The distressed leathers are enhanced with a rugged quality while the colored leathers are supple and luxurious.

The layered weaves of the book cloth highlight the craftsmanship and beauty of the albums. These covers are also incredibly versatile. When paired with custom designed embossing, book cloth can range from casual to elegant.

DEBOSSING

Bring extra life to the cover of your album by adding debossing. After selecting your choice of leather or book cloth, finalize your cover design with personalized names and dates.

Choose from a selection of gold, black, white, clear, or blind. We will work together to create a design you really fall in love with.

The possibilities are endless.
