HELLO AND *welcome*

Congratulations on your engagement!

This is such an exciting time for both of you - and I know wedding planning can sometimes be overwhelming. First, I want to thank you for considering me to help capture this journey. I'm Christine Quarté, a wedding and lifestyle photographer based in Atlanta.

My job is to preserve these lasting, new memories so you have them after your big day - and can cherish them any time you'd like. I want your photos to feel authentic and tell your story - so when you look, you see it all: the memories made, the atmosphere and the emotions.

It's important to choose a photographer that makes you feel confident and excited. I'd like to help with that. Take a look through my wedding package guide to learn more about pricing, packages and my process.

my photography mission

purposeful

After spending months carefully planning your wedding day, it's important to ensure it's properly captured. Being connected with couples, I work to curate a photography plan that ensures we fully capture the important moments and details of the day.

enjoyable

There are many emotions and events during a wedding journey. But the most important part is that you get to enjoy them. I look for couples who are ready to savor and create these moments together. I aim to deliver both a fun experience and lasting images that you two will cherish.

narrative

Our memories and experiences are what makes us who we are as individuals. I aim to establish an understanding of your overall vision for your wedding day - and spend the entire journey getting to know you and your partner's personalities and your unique story.
