Beautifully appointed lobby with panel molding, hand-cast plaster crown molding, a custom finished elevator, and a patterned Italian marble floor inlaid within the warmth of imported oak chevron patterned flooring.

Illustrious 4,181-square-foot, two-level Penthouse unit features a newly constructed 1,503-square-foot modern upper level addition, appointed with front and rear motorized glass walls that blur the boundary to 970 square feet of private front and rear outdoor space.

Floor-through units offer 2,812 square feet of single-level living. Duplex units offer two-level living, each with approximately 450 square feet of private outdoor space.

Ambient heat is provided in bathroom suites by radiant flooring.

Residences also include gas fireplaces in the living room and primary bedroom suite.

Cooling is provided via VRF units and low velocity air handlers.

New historically appropriate windows have been installed to enhance thermal comfort.
