wedding book & album guide

Touch has a memory

- John Keats

Turning over pages one at a time, breathing in the scent of paper and ink, at the kitchen table with Mom or curled up with a toddler on the sofa.

Photo albums create an intimacy and experience unlike any other media. We're so glad you are thinking of creating one with us.

wedding book & album guide

## STEP 2 - CHOOSE YOUR IMAGES AND FOCUS

Let your story take its shape from your favourite images and we will take care of the rest.

1. Create a list of your must-have images.
2. Tell us about any specific moments you would like included in your album such as your first dance, a photo with Dad, the first look, etc.
3. Choose a focus for your album. Is your priority people and emotions, décor and details, a combination of the two?

### STEP 3 – REVIEW, APPROVE, AND PRINT

#### Review 1

Once your album is complete, we will send it to you to review. If you would like to replace any photos or adjust the focus or order of your album, we are here for you. Let us know in detail how we can make your album exceed your expectations.

#### Review 2

With your changes in mind, we created your finished album. We hope you are over the moon with the finished product. Review number two is for the finishing touches. Did we forget to dot an i or cross a t, let us know and we will make it right.

With your final approval, we will submit your album for printing and let you know when your album is on its way to you.

Yep. We're pretty excited too!
