

Laurel Avenue LOUNGE

LISA OBERST DESIGN

The lounge evolved through several iterations of bedroom, office, and ultimately the clear winner: a dedicated lounge to unwind. This moody, cocoon-like space is designed for reading, relaxing, or slipping into a quiet nap. Deep, monolithic textured tones create an intimate atmosphere, framing the fireplace and setting the perfect backdrop for a favorite show. Large french doors open onto a generously sized deck, allowing cool ocean breezes to drift in and soften the room. Large pocket doors close the room when privacy is needed. A custom alpaca rug and tailored sofa complete the space, adding texture and comfort to this refined retreat.
