Pearls Night Out → These pretty pins let you wear pearls in your hair instead of around your neck. For longer hair, they also turn braids into something seriously sophisticated. (Tip: Secure braids by teasing the ends of each with a fine-tooth comb—no elastics needed.)

On the Cuff → Soften your topknot (and be less ballerina) by gently pulling out a few strands around the face. This style works best when hair is slightly dirty (meaning a day or two after washing)—it creates a more textured, casual look.

BEST FOR ✂️
mid-length hair

With the Band → Dress up a loose bun with an embellished headband. To keep the look grown-up, placement is key: It should be only about 2 inches back from the hairline. Double knot ends underneath bun for extra hold.

Comb Over → Like jewelry for the hair, a sparkly comb elevates any style. Keep your look smooth by finishing with a light hairspray, like KMS Hairstay Working Hairspray (kmshair.com/en-US/Salon-Finder/, \$23). Tip: Before placing comb, tease hair at the root for extra grip.
