To ensure the quality and calm intention behind every pour, each Tea Garden experience is booked as a time-based service with a capped number of servings. Your event will conclude when either the allocated time or the total number of servings included in your selected package is reached—whichever comes first. This allows us to provide a seamless, beautifully paced experience for you and your guests without compromise.

For additional time or servings, enhancements are available with your booking.

Looking for a more flexible service option that still delivers the elegance of Leaf Petal Stem?

The Bloom and Pour is our boutique-style cash bar designed for open events, brand activations, or community gatherings where guests purchase their own drinks—but the setting still feels beautifully curated.

This is a cash or card bar service, perfect for pop-ups, open houses, or public-facing events. We require a \$150 minimum in total sales, which also acts as your retainer to reserve your date.

If your guests do not meet the sales minimum during the event, the difference will be charged post-service.

For example: If your guests purchase \$110 in drinks, the remaining \$40 would be charged to the host to meet the \$150 minimum. If sales exceed \$150, no additional fees apply.
