# Meet Your Farmer

---

I'm Kim Hill and my goal is to begin a collaborative, creative relationship with a few very special event floral designers in the Richmond and Charlottesville area who are not satisfied with the status quo. Who believe it's important to support small, local growers and want to offer flowers that smell like heaven and delight the senses. I am also an artist and event planner and love the challenge of reaching for the most aesthetic expression of growing. I delight most in growing the special little blooms. The ones that sparkle in a boutonniere and dangle out of a bridal bouquet. And I want to collaborate with creatives who want to push their designs over the top.

# Availability List for the 2024 Growing Season Alphabetically

---

Amaranthus, red spike  
Ammi Dara  
Ammobium Grandiflorum

# Policies

---

- Availability list will be emailed by noon every Sunday. Each email will have an order form with price list to make choosing your stems easy.
- Orders can be placed by simply replying via email. Just fill out the order form and I will confirm availability and reserve **your** flowers.
- You will receive an invoice to be paid ACH before or upon delivery. Credit card payments will include 3% service fee. Deliveries can be made to the Richmond area on Wednesday afternoon and in the Charlottesville area on Tuesday afternoon for a \$50 fee. Alternate delivery times possible depending on availability. Pick up is always an option as well. Harvesting happens early mornings for the best possible blooms and held as short of a time as possible. They will be stored in a walk in cooler for superior freshness.
- Please note that seasonality availability are approximations. Weather determines so much about what stems are available when. Also know that this list is not complete. I am constantly trialing new things and will be surprising you with interesting tid-bits! For example, I am growing 18 different kinds of unique and rare clematis this season. They are starting from seed from a farmer in Ukraine and since I don't really know what to expect, I'm not listing them just yet. However, I do have a few established vines I will be offering for sure. Also, I adore sweet peas, but the feeling is not always mutual. She's a tricky girl in this climate. If I have them, I can tuck them in your buckets if the color palette suits your order for a fun little surprise.
- Most of all, I want to have fun helping you design your most creative events! I'm genuinely excited for you and I think my flowers will help push your designs over the top!
