Subject: Constituent Phone Call

Hi Commissioner Harala,

I took a phone message from Annie Nelson from 720 East 1st Street, Duluth 55805. Her phone number is 651-387-4121.

She requested full transparency regarding the NDA. She would like the public to know the company was proposing the project, make sure that there is a full environmental impact assessment and transparency throughout. She wanted me to share a "What the hell?" about the process at today's board meeting. She knows you were not at this meeting, but she would urge you to second a future NDA motion if it were brought to the board again.

Beth
