And makes it look easy 😊

Hello! I'm so glad to be here.

I'm a speech-language pathologist who has spent my entire career working with children—and I truly love what I do. I attended TTUHSC for grad school but immediately moved to Northern California where I worked for almost ten years in a private practice that gave me a strong foundation and a wonderful team to learn and grow with. It was there that I developed a passion for helping children build their communication skills in fun and meaningful ways.

After moving to Dallas, I continued expanding my knowledge—not just in speech and language, but also in feeding therapy. I've enjoyed learning more about how to support children across many different areas of development, and I continue to find so much joy in watching kids reach their goals. Every day brings something new—a silly moment, a big breakthrough, or a quiet win—and being part of those moments is incredibly rewarding. I'm constantly inspired by their creativity, determination, and joy.

I love spending time with my husband, two kids, and our dog! We enjoy traveling to old places just as much as we love traveling to new places. It's been fun to watch our kids experience all that Lubbock has to offer.

I'm so excited for this opportunity at Dear Sister Therapy! I can't wait to learn more and continue to provide the best services in Lubbock!

♥ Emma
