Accessible PDFs/docs	✓
Language set	✓
Focus indicators	✓
Time limit/recovery	✓
Text alternative to media	✓

Disclaimer:

This checklist is provided for general informational purposes only and should not be interpreted as comprehensive guidance or legal advice. While it highlights key accessibility considerations for websites under the European Accessibility Act, full compliance may require additional measures based on your specific business, website, and target audience, as well as evolving legal requirements.

For a thorough review and to ensure your website meets all relevant accessibility standards (such as WCAG 2.1 AA), consider consulting with a qualified accessibility specialist or legal advisor.
