ANIMAL-PRINT WALLPAPER AND BOLD STRIPES MAKE THIS AN OUTSIDE-THE-BOX CHOICE FOR BABY.

Heavy navy trim on the curtains echoes the chevrons on the room-filling rug — a great choice that provides little ones with a soft place to land when playing.

A picture of a friendly giraffe forms a focal point, while wall-mounted shelves work around an awkward chimney breast. The soft chair and pouf give Mom a relaxing place to nurse or read to the baby. **Design, Allison Willson.**

WHY WE LOVE IT:

- **A neutral colour palette makes zebra wallpaper livable**
- **Navy accents are crisp and gender-neutral**
- **The theme is subtle and sophisticated, not gimmicky**
