The Need: *Maasai Corner High School*

Real 4 Christ Ministries is seeking partners to help raise \$500,000 for building a high school at Maasai Corner. Currently, we are educating over 400 students from preschool through 9th grade, and we aim to support these students in completing their education. With no suitable high schools nearby, our graduates are compelled to move to boarding schools across the country.

The Land: 5 ACRES

Years ago, we were given the opportunity by God to acquire this land. We have utilized it for farming and as a sports area for our students. We truly believe this is the ideal location to establish the high school.

With ample space and a serene environment, the land provides the perfect backdrop for our vision of a modern educational campus. We've carefully planned the layout to include spacious classrooms, a library, and science labs, all designed to foster a love of learning and innovation. Additionally, we've integrated sustainable practices into the design, ensuring that our campus is not only inspiring but also environmentally responsible. As we move toward the future, we are excited to create a nurturing and dynamic space where students can thrive academically, socially, and personally.

The Plan:

- Maasai Corner High School will focus on STEM education, highlighting science, technology, engineering, and mathematics while also prioritizing sports and the arts as a secondary emphasis.
- The school will host grades 10-12 (with about 120 students) and include an education block with three homeroom classes, three elective classrooms, a multi-purpose room, and a science lab. Additionally, an administration block will feature a computer lab, library, teacher workroom, office spaces, and a reception area.
- We will construct volleyball, basketball, and netball courts.
- A new dining hall and chapel will accommodate up to 250 individuals and will be equipped with modern lighting and a new sound system for events. The kitchen will feature energy-efficient cookers.
- There will be separate restroom blocks for young men and young women, as well as staff
- The entire campus will be handicap accessible

The Why:

- We have had the privilege of teaching these students for ten years and are eager to continue nurturing the Christian values they have developed.
- The Love of Christ will be a consistent presence throughout their entire academic journey, from Pre-K to grade 12.
- At Maasai Corner, we strive for excellence in everything we do! We are thrilled to provide our students with the highest quality education available in the region.
- Sixteen years old is still too young to be far from family and a strong support network.
- The atmosphere in boarding schools can be unhealthy and sometimes perilous, with immoral and un-Christian influences coming from older students and staff.
- In some cases, families may lack the financial means to send their children to boarding school, resulting in them missing out on education or attending subpar high schools.

The Timeline:

- December 2024: Conduct pre-construction research, obtain permit approvals, finalize architectural drawings, and prepare the ground.
- January to March 2025: Engage in fundraising activities.
- April to December 2025: Construction Phase
- January 5, 2026: Grand Opening Celebration

The Ask:

We need \$455,000 to construct the school buildings and an additional \$45,000 to completely equip and furnish all necessary items.

We strive to establish a nurturing learning atmosphere where students can thrive academically, personally, and spiritually. Our vision is to create a space where individuals can feel the love of Christ, receive an excellent Christian education, and prepare future leaders.
