NEUTRAL TERRITORY

As spring approaches, neutral palettes are fresh again as creamy whites, sophisticated shades of gray and pretty pastels make for wow-worthy wedding decor.

CREAM OF THE CROP

"With the ongoing trends of blush and ivory weddings, we wanted to do a twist and amp up the color palette using a mix of peaches and corals with hints of marsala," explains Eliana Baucicault of **ellyB Events**. "The color palette remained dainty and classic but utilized some of these new on-trend colors."
