● EXPERIENCE

With over 30 years in male-dominated industries, I have excelled in corporate roles and as a serial entrepreneur—embracing failures, lessons, and successes.

I integrate leadership and systems with a pragmatic, digestible approach, and my research in emotional intelligence empowers leaders to achieve strategic alignment and drive results.

As a first-generation Latina with a PhD in Leadership Studies, I offer actionable frameworks and tools that enrich lives and reimagine how we think, live, and lead.
