

COURSE OUTLINE

01

Supplies

Let's start strong with an overview of all the supplies you'll need in your watercolor journey! We'll cover everything from how to set up your palette to all the fun extras you might want.

02

Basic Techniques

Every watercolor painting can be broken down into simple techniques. By the end of this module, you'll have the skill + tools to get started on any project!

03

Color Theory

Color is part of what makes painting so transformative. In this module, we'll go over color theory basics, color mixing, color bias, color harmonies, and other useful tips to help open your artist eyes!

04

Beyond the Basics

With the basics under our belt, let's dive a little deeper into tips and tricks that will enhance your watercolor practice.

05

Exploring Subjects

What do you like to paint? This module is the beginning of your own personal artistic exploration! Let's paint a few different subjects and learn how to identify what lights you up as an artist.

06

Developing Creative Courage

Copying is how we learn... but how can we nurture our own creative ideas? This module is all about practicing courage and moving beyond tutorials!

COURSE OUTLINE

07

Exploring Style, Part 1

Let's explore style! We'll wander through abstract painting, photorealism, illustrative techniques, and form-based paintings.

08

Exploring Style, Part 2

Let's explore style, part two! We'll wander through mixed-media sketching, impressionism, expressionism, tonalism, and process art.

09

Building Creative Habits

How do we make creativity a habit? Let's talk about it! In this module, we'll discuss the four Creative Habits you'll need to build a sustainable creative practice.

10

Creative Project Management

Want to try more than done-in-one-sitting projects? In this module, we'll discuss creative project management and how to take care of yourself while accomplishing your goals.

11

Creativity + Being a Human

Despite our best efforts, being a human means constant change. Let's discuss creativity + changing mental health, physical health, busy schedules, and neurodivergence.

12

Lifelong Creative Practice

Creativity is a lifelong practice, and in this module, we'll chat some final obstacles (like burnout, failure, and boredom) as well as methods to keep learning and growing.
