

Android Media Player

BRZ-300

Featuring High Performance, Ultra HD 4K Resolution

The BRZ-300 player is a revolutionary way to deliver dynamic sign messages using the most efficient IT methods available.

Benefits of Breeze™ Digital Signage Software Enjoy cloud-based software, software support and everything you need to keep your digital system running for years. Software updates are included with our Service Level Agreement (SLA) Subscriptions.

Contributing digital signage content to the Breeze™ Digital Signage players is easily made into a group task with an unlimited amount of software users. Each user can securely access just the software tools relevant to their process while administrators retain system-wide transparency.

Unlimited Zones to Showcase Your Media Your audience can get all the information they need at a glance. Breeze™ Digital Signage Software provides an unlimited number of zones -- areas displaying independent media sequences -- on the screen.

High-Quality Media Viewing for Videos, Graphics, RSS Feeds, HLS Streaming A robust variety of widgets easily integrate breaking news, current events or priority content. Integration of the Common Alerting Protocol (CAP) and compliance with FEMA's IPAWS-OPEN standard allows Breeze™ Digital Signage players to automatically discover and display emergency alerts. Features like instant publishing and metadata make managing the Breeze™ Digital Signage system as easy as a day at the beach.

The Perfect Hardware Package

- Small Form Factor
- Noiseless, Fanless, Solid-State Design
- Built-In Mounting Bracket

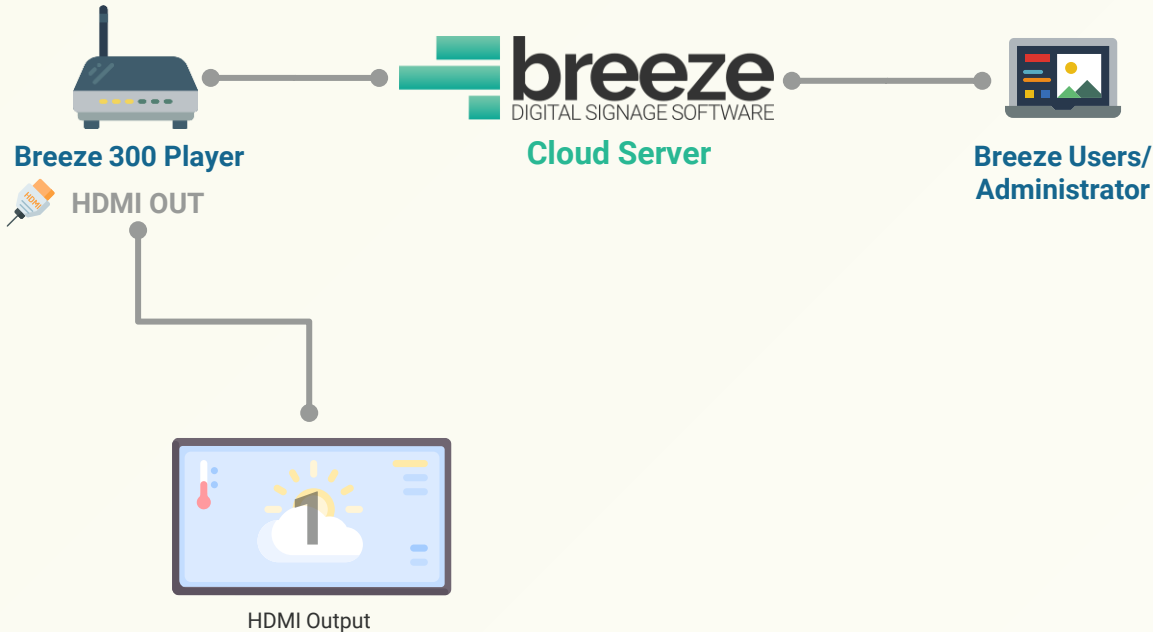

Safe and Secure Breeze™ Digital Signage players have been designed with encrypted data communications to keep you secure. Client-to-server, server-to-player, and server-to-feed-server communications are all encrypted using SSL/TLS technology. In addition, this player is Independent Watchdog Protected.
