

A full-page background image of a wedding couple. The bride is wearing a long, lace-trimmed white gown with a long train and a tiara. The groom is wearing a dark, patterned suit with a white boutonniere. They are standing under a large, ornate, light-colored archway. The archway has intricate carvings on its pillars and a series of lights along its top curve. In the background, a body of water and a distant building with a spire are visible under a cloudy sky.

WEDDING FILMS

HELLO

It's Nick here, and I'm honored to be a part of your wedding journey. As a wedding videographer and the owner of BLOC in Northumberland, I know that capturing the raw, unbridled emotion of your big day is everything. Nothing makes me prouder than crafting a wedding film that tells your unique story, a film that you can watch forever and relive those cherished moments.

I want to be there with you on your special day, to capture all of the fleeting glances, stolen kisses, and heartfelt exchanges that make your wedding day truly unforgettable. At BLOC, we're all about creating films that transport you back to that moment, where you can feel the same emotions all over again.

Gone are the days of stiff, cookie-cutter wedding films. That's not what we do at BLOC. Instead, we pour our hearts into creating films that are as unique and beautiful as your love story. And if you haven't seen our work yet, I encourage you to check out our films on our website or request a sample online gallery.

As your wedding videographer, I want to make your planning process as stress-free as possible. That's why we've simplified things with our wedding collections, that includes everything you need. With three options to choose from to make your films even more special.

I'd be thrilled to chat with you and learn more about your wedding day vision. Let's see if BLOC is the perfect fit to capture the memories of your lifetime!

THE STORY

We pride ourselves on capturing moments as they happen. We don't direct your guests, letting them experience the day the way you planned. Our films allow you to be a guest at your own wedding.

As your wedding morning starts to begin, we arrive at a time best for you and your preparations. This gives you more time to relax during your morning.

Magical moments are moments we wish we could do again and again... Your wedding day will be packed full of these moments and we want to capture them.

People spend a lifetime thinking back on memories but not truly being able to remember them. Long after the day is a distant memory, your film will take you right back to your speeches and vows, and the emotion behind them.

THE EDIT

When it comes to editing your wedding footage we take our time with each and every clip we film. Sometimes it can be hard to fully understand the editing process of a wedding film as you don't need to really give it any thought.

Your audio and raw footage is first backed up in several locations to ensure it's safe.

We then start creating your story in the way you told it on your wedding day. Bringing in the audio from your speeches, vows and layer that with sounds from around your day.

Every film is colour corrected to bring out the best of each clip we film. It really is night and day from the RAW to corrected image.

THE PROCESS

Fun, emotion and natural are at the heart of every single one of our films. You'll almost forget we are there as we calmly capture all of the best bits of your wedding without feeling like you have a camera in your face all day and we love capturing natural moments as they unfold, we celebrate your day with you. we seamlessly work alongside your photographer to make sure you get the most from them and us, we love to work with natural light as it fills the rooms to make the most magical films on the most important day of your life.

Some moments of your day mean we have to get involved. We will be with you and your guests as we dance the night away capturing moments from the dance floor.
