Other Testing- Hair, Stool, Urine is available for anyone over age 18 years old and who does not have Medicaid.

### Need a test not listed?

We have many more laboratory tests available, just ask us.

### Test Preparation

It is required that you fast for 12 hours before most tests and you refrain from strenuous exercise for 24 hours prior to your blood draw. It is also strongly recommended to be well-hydrated to ensure easier blood draws and an accurate urinalysis. We also recommend a morning test for the most accurate results related to hormones.
