ABOUT ME

Photography has been a passion of mine from a young age. From the moment I bought my first camera at sixteen, that little black device has always held a special place with me.

Fashion has been another lifelong love. I even ran a blog dedicated to it and happily photographed my own outfits (those images will remain private, haha). Choosing to study fashion business therefore came quite naturally.

With a background in the fashion industry, I capture moments in a way that feels not only authentic, but also refined, stylish, and effortlessly fashionable.

I carry this combination of emotion and style into my work as a wedding photographer. It is an honour to freeze your most meaningful moments in time. I capture love and emotion in a pure, honest way, creating images that feel warm and nostalgic, with a subtle magazine-like aesthetic. The result is a timeless, refined story of your day.

In my free time, I love gaming (RPGs, for those in the know) and reading fantasy novels — yes, I'm a bit of a nerd. I also enjoy staying creative beyond photography, through drawing and painting. When I'm in the mood for something more active, you'll find me at the gym. And last but not least, I'm a true animal lover and train weekly on the field with my Dobermann, Yoshi (@yoshidobie).

My mission.

To capture your unconditional love for one another in a refined, stylish way, so you can cherish it forever.

TESTIMONIAL

“We are so happy that we chose Vivian as our wedding photographer! From the very first moment, she showed great initiative and came up with wonderful ideas to capture our day in the best possible way. Her creative perspective and eye for detail resulted in beautiful images that truly exceeded our expectations.

Equally important: we received a preview of the photos very quickly, and the final selection was delivered soon after. The quality of the images was flawless: exactly what we had hoped for. Thanks to these photos, we now have a truly beautiful collection of memories from our wedding. Thank you so much!”

DEFY THE ORDINARY

For me, photography is about breaking away from the ordinary. I capture spontaneous moments that are not only timeless and refined, but above all authentic and filled with emotion. No standard images, but photographs that truly tell your story, with an editorial flair. In this way, all your special moments are preserved in a nostalgic, documentary style.

Approach

01. Wedding inquiry

Would you like to book me as your wedding photographer? Please get in touch via the contact form and share as much information as possible.

03. Pre-wedding call

Your wedding day is getting closer... To take care of the final details, we'll schedule a brief call to go over the timeline and last practicalities. This way, everything will run smoothly on the day itself.

05. Editing & delivery

I'll begin carefully selecting and editing your wedding photographs. You'll receive a preview one week after the wedding, followed by the full gallery within 6–8 weeks via a private online gallery.

02. The preparation

How lovely that you'd like me to capture your wedding day. We'll start with a short introduction call to get to know each other a little better. After a 30% deposit, we're officially booked. One month before the wedding, you'll receive the invoice for the remaining balance.

04. The day of the wedding

Yes, the big day has arrived. I know it can feel a little nerve-wracking to be in front of the camera, but I'll do everything I can to help you feel at ease.

06. Creating your wedding album

Have you chosen a luxury wedding album? After the delivery of your photos, we'll start designing it together. You select your favourite images, and I'll carefully design the album. Once approved, it will be sent to the supplier.

Your wedding day is all about you, and I make sure everything around it runs effortlessly. From our first introduction to the moment you open your wedding album, I'll guide you step by step. Thanks to a clear and thoughtful workflow, you'll always know what to expect - no unnecessary fuss, just warm communication, attention to detail, and images that feel like an editorial memory for a lifetime.

WHAT TO EXPECT

This is how I work with you

Your wedding day is about your love, not about stiff poses or strict schedules. That's why my approach is entirely focused on helping you feel at ease, so I can capture everything as it truly was: loving, spontaneous, and refined. From our first introduction to the delivery of your album, I guide you through a relaxed and personal process.

Stylish portraits Captured in the moment

Almost every couple says it: "We never look good in photos." No worries — that's exactly what I'm here for. During the portrait session, I make sure you feel comfortable and relaxed. No rigid poses, but natural moments where you can simply enjoy being together. I work from a documentary perspective, offering subtle guidance along the way so everything feels effortless. Think talking, laughing, moving. This is how I capture the most beautiful, spontaneous images with an editorial touch: making everyone look fabulous, while staying completely themselves.

A magazine-worthy story

I believe wedding photography should not only be beautiful, but also honest, emotional, and personal. No staged images, but photographs that truly reflect who you are, you and your guests. Including all the small glances, touches, and spontaneous moments in between.

My style is editorial with a cinematic touch: a balance of genuine emotion and refined composition. I work with great attention to detail, light, and atmosphere, ensuring your photos are not just memories, but an experience in themselves. Think timeless images that could easily belong in a magazine, without ever losing their authenticity.

I capture your day as it feels. From the nervous excitement of the preparations to that quiet, grounding moment just after the ceremony when everything sinks in. The result is a story told in images that doesn't just look back, but allows you to relive the day.

With my background in fashion and a love for cinematic storytelling, I bring a certain magic to your photographs: effortlessly stylish, deeply real, and entirely yours.

TESTIMONIAL

“Vivian is an absolute joy to work with and makes you feel relaxed and at ease from the very beginning. In the lead-up to the wedding, we were able to go through all the details together, which gave us a real sense of calm. On the day itself, Vivian is almost invisible, capturing the perfect moments at exactly the right time, without you even noticing she’s there.

The result was a beautiful collection of photographs, carefully brought together in a stunning wedding album that we find ourselves looking through every day. We would wholeheartedly recommend Vivian to anyone who wants their wedding day captured in an exceptional way, with a truly pleasant and professional collaboration.”

Photography for *free spirits* & the *wildly in love...*

More than just beautiful photo's

Choosing a wedding photographer is about so much more than finding someone who takes beautiful images. Your photographer is by your side throughout the entire day, capturing vulnerable, loving, and hilariously joyful moments, preserving them forever.

That's exactly why it's so important that there's a genuine connection, that you feel comfortable and have complete trust in my style and approach. When we're a good match, photography doesn't feel like "posing," but like creating something meaningful together. And that's exactly what you see reflected in the images.

TIPS FOR AN EFFORTLESS, RELAXED SHOOT

Simply enjoy

During your wedding day, I photograph in a spontaneous, documentary way. That means: no fuss, no awkward posing. Just you, exactly as you are. I move through the day as a quiet observer, capturing the connections with your friends and family as if I've always been there. Most of all, it's important that you simply enjoy the moment together with the people you love.

'We're not photogenic'

I keep things relaxed during the portrait session as well. Almost every couple tells me beforehand: "We never look good in photos." And yet... they always do. Why? Because I don't force you into unnatural poses. Instead, I let you talk, laugh, and simply be together. Of course, I'll gently guide you with subtle direction now and then, giving the images that refined editorial touch.

Practice the dip!

Looking for an iconic moment in your wedding photos? A classic dip, you know, that romantic lean-back during a kiss, is always a winner. It looks incredible on camera, especially right after the ceremony, with confetti still in your hair.

Try practising it together beforehand. That way, it won't feel awkward or unfamiliar on the day itself, and we can capture that picture-perfect moment naturally during the shoot. And don't worry if it feels a little clumsy at first: those moments often make for the most charming images.

Planning your portraits

I often plan this moment around golden hour, when the light is at its most beautiful, but it can also take place right after the first look or the ceremony. Your comfort always comes first, so we'll choose the moment that feels best for you.

To make sure you look absolutely fabulous in your portraits, I recommend allowing about one hour in the schedule for this session.

TESTIMONIAL

“Vivian photographed our wedding and we couldn’t be happier with the result. She made everyone feel completely at ease in front of the camera and captured all the details so beautifully. When we look back at the photos, we can truly feel the emotions just as we experienced them on the day itself.”

Vivian managed to capture what mattered most to us in such a meaningful way, leaving us with beautiful photographs that allow us to relive our wedding day.”

FAQ

1. What if the weather isn't great on the wedding day?

If you're working with a wedding planner or a designated family member or friend, I stay in close contact with them so we can create a solid plan B (and C, if needed). Most importantly: don't worry. No matter the weather conditions, I'll make sure your wedding day is still beautifully captured.

2. When is the best time to book?

To make sure I'm available as your wedding photographer, I recommend getting in touch as soon as possible. I only take on a limited number of weddings, so my calendar fills up quickly. You're always welcome to send me a message to check availability for your special day.

3. How does payment work?

Once the proposal is approved, I'll send an invoice for 30% of the total amount. After this deposit is paid, we're officially booked. One month before the wedding, you'll receive the invoice for the remaining balance.

4. What happens if you're unable to attend due to an emergency?

In the rare event that I'm unable to attend your wedding, I have a trusted network of fellow photographers who share my style, standards, and approach. If needed, I'll arrange a replacement photographer for you. In the worst-case scenario, you'll receive a full refund.

5. How can we get to know you?

Before we say "yes" to each other, I always schedule an introductory call. This gives you the chance to share who you are, how you got engaged, and how you envision your wedding day. You can also choose to book an engagement shoot: a lovely way to get comfortable in front of the camera (and with me). Perfect for your save-the-date, wedding website, or simply as an extra love-filled memory.
