TO: Medical Staff & Allied Health Providers  
FROM: Moudy Youssef, MD, Chief Medical Officer  
RE: **Up-to-Date - Anywhere Remote & mobile – Free CMEs - Please Register**

---

Fairchild has made **UpToDate® Anywhere** available for our Medical and Hospital staff. UpToDate Anywhere provides many additional benefits when you register. It's free and easy to do. If you would like you can [watch a short video on the benefits of registration at https://www.uptodate.com/home/uptodate-benefits-registration](https://www.uptodate.com/home/uptodate-benefits-registration)

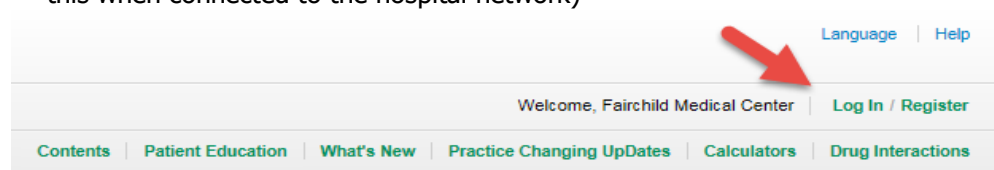

**Here's what you get with UpToDate Anywhere:**

- Free UpToDate Mobile App for your iOS® or Android™ device
- Easy access to UpToDate remotely (outside of the hospital's network),
- Free continuing education credits (CME/CE/CPD/MOC) when you research a clinical question using UpToDate onsite or remotely – **including on your mobile device**

**Register now — it's easy:**

Simply log in to UpToDate from our network either through remote access or onsite. You can do this in two ways:

1. Navigate to FMCDOCS under "Training, In-services and Information" link or go to [www.UpToDate.com](http://www.UpToDate.com) through the web browser when connected to our network and click the log-in link on the top right and then enter your user name and password (do this when connected to the hospital network)

**In order to obtain CMEs you will need to login** prior to performing a search. Please get in the habit of looking for your name in the upper right hand corner and/or logging in.

In the near future you will be able to access UpToDate via an embedded link within both NextGen and Soarian.

This account is linked to your affiliation with Fairchild Medical Center. **To keep your account active, simply login through our institution's network every 90 days to maintain benefits.**

I urge all of our clinical staff to take advantage of this valuable resource. This will give us an additional tool to deliver evidenced based care according to the latest clinical guidelines while accumulating CME credits for FREE.
