## Posed Photography Picture List

My couples are welcome to choose which of the following portraits they would like to have taken on their wedding day. I will help to create the final posed picture list one month prior to the wedding during our final photography consultation.

### **Prior to the ceremony:**

Taking the following posed portraits prior to the ceremony allows for a more relaxed portrait session following the ceremony. This allows more time for the couple to mingle during cocktail hour, or more time for portraits of the couple alone. The couple is photographed separately with their family and attendants as to avoid seeing one another prior to the ceremony.
