

## Dining Room

PHOTOGRAPHY BY GARRETT ROWLAND

### Claudia Tejada: Claudia Giselle Design

Location: Briarcliff Manor

This dining room designed for a family who love to entertain mixes traditional and modern. The wainscoting and crown molding add formality, while the mix of wood-and-brass detailing and the gold-and-gray palette add a contemporary touch. The challenge in this room was providing the option to host a variety of party sizes without crowding the space. This was achieved by using a custom expandable rectangular table that can accommodate 12 guests. There is also a custom sideboard for storing fine china, silverware, and crystal.
