

Mini Sessions

WHAT TO WEAR

OUTFITS

If you are a family or couple, think coordinating, not matching. Avoid logos or graphics.

Layers are great! Jackets, cardigans or vests.

Choose outfits you feel are comfortable but polished. We want to represent your true selves but in an elevated way.

COLORS

Muted tones tend to look best, especially in the fall! Neutrals are no longer just black + white. You can use beige, denim, or even blush as a base and layer in texture or patterns from there.

Think about the colors in your home or the style of holiday card you are drawn to! What would go with those well?

COLOR PALETTE INSPIRATION

TIPS + TRICKS

Bring a blanket to sit on or snuggle up in.

Have fun! Think of these sessions as a fun activity to do together with your family.

Bring your dogs- yes I said It! We will embrace all the fun + chaos.

If you have kiddos... gummy bears make great little bribes and aren't too messy.

Don't stress about perfection — the best photos happen when you're relaxed, snuggled up, or laughing together.
