

5 Essential Questions to Ask Before Starting Your Remodeling Project

1 HAVE YOU WORKED ON PROJECTS SIMILAR TO OURS?

Experience counts! Ask for examples of past projects that align with your needs or project to gauge their expertise and style. It's also helpful to inquire about the cost range for similar projects—what are we looking at in terms of budget? Be sure to ask if they're willing to share past project costs, so you can see if your budget aligns with their typical work.

2 TELL ME MORE ABOUT YOUR TEAM.

Who will be working on the project with you? Do you hire subcontractors? There are different approaches to consider. Some homeowners choose to work with an architect first, then a builder. Others opt for a design-build firm that handles everything from start to finish. It's important to ask how they typically work to understand which approach suits your needs best.

3 HOW DO YOU MAINTAIN A CLEAN AND SAFE WORKSPACE?

It might not be the most glamorous question, but it's a crucial one. You want to hire a team that respects your home, even during construction. Be sure to ask about their practices for maintaining a tidy work area throughout the remodel.

4 WHAT'S THE BEST WAY TO COMMUNICATE WITH YOU?

Establishing clear lines of communication from the start is essential for a successful remodeling experience. Find out their preferred methods of contact and ask if they would be willing to work with your preferences.

5 WHAT IS YOUR PROCESS LIKE?

It's important to know what responsibilities you'll handle versus what the remodeler takes care of. Will you make selections on your own or have support? Will you meet subcontractors on-site, and how does that work? Understanding their process helps ensure everything runs smoothly.
