

BLAST NOTICE

Dear Homeowner or Resident:

We at Maine Drilling & Blasting would like to take this opportunity to introduce you to our company and advise you that we have been selected to conduct the rock drilling and blasting operation for the proposed residential project located at 1471 Blue Hill Ave, Mattapan Massachusetts.

The blasting will commence the week beginning November 17, 2025. As a courtesy, we can call, email, or text you prior to each blast. If you would like to be placed on the pre-blast notification call list, please let us know by contacting Esta Falvey at (508) 603- 5220.

A code of blasting signals for project employees, audible for a distance of 250' from the blast site is listed below.

WARNING SIGNAL: Three long blasts five minutes prior to blast signal

BLAST SIGNAL: Two blasts one minute prior to the shot

ALL CLEAR SIGNAL: A prolonged blast following an inspection of the blast area

The site will be posted with well-marked with highly visible signs that detail the whistle warning signal sequence sounded prior to the commencement of each blast. The signal may be audible to neighboring residents or the public. All blasting will be conducted between the hours of 8:00am and 4:00pm Monday-Friday and no explosives will be stored at the construction site overnight.

If you happen to be in the vicinity during the initiation of a blast, you may experience low levels of ground vibration. Rest assured, we strive to minimize the amplitude of each blast and use the most advanced technologies available to the blasting industry to both measure and minimize the seismic effect to the area. All blasts will be covered with blasting mats to prevent any material from leaving the blast site.

Sincerely,

A handwritten signature in black ink, appearing to read 'Matt Shaughnessy'.

Matt Shaughnessy
