### ENGAGEMENT PHOTOGRAPHY

#### *Ideas, Insights & Professional Tips*

Congratulations on your engagement! Let's delve into the world of engagement photography, covering everything from wardrobe choices to selecting the perfect locations. These finer details are what elevate your photos to truly stunning works of art.

*While finding a photographer you trust and connect with is paramount, here are some additional tips to consider.*

#### **Choosing the Location**

Consider selecting a location that holds special significance for both of you. Whether it's where you first met, a cherished spot you frequent, or even the place of your proposal, incorporating these meaningful locations can add an extra layer of sentimental value to your engagement photos. If you're open to suggestions or unsure about where to shoot, your photographer can provide plenty of ideas based on your preferences.

Opting for multiple locations can also add excitement and variety to your photo session. For instance, you might begin with a cozy coffee shop or trendy pizza parlor in the city and then transition to a serene park setting for a completely different vibe.

#### **Deciding on Outfits**

Your choice of attire sets the tone for your photoshoot. Neutral tones often photograph exceptionally well, imparting a soft, romantic ambiance to your images. Alternatively, classic black and white ensembles exude timeless and chic elegance. Considering your chosen locations and desired aesthetics, you could incorporate different outfits to create distinct looks throughout your session. For example, you might start with sophisticated black and white attire for an urban setting before changing into softer, neutral tones for a more natural backdrop. This way, you'll receive a diverse array of images that reflect the joyous moments of this special time in your lives.

When it comes to wardrobe selection, it's advisable to steer clear of overly vibrant or neon hues, as they can detract from the overall feel of the photos unless that aligns with your desired theme. For example, if you're planning a playful session at a vibrant location like an arcade, embracing bright colors and graphic tees can complement the energetic atmosphere.

### **Embracing Accessories**

Accessories can add personality and flair to your engagement photos. Whether it's sentimental items, statement pieces, or meaningful props, don't hesitate to incorporate them into your session to infuse it with your unique style and story.

### **Attention to Detail**

While celebrating your engagement, your ring naturally takes center stage. Ensure you're prepared for close-up shots by taking a moment to tidy up your nails and clean your ring if necessary. These small details can make a big difference in the final presentation of your photos.

### **Preparation Is Key**

Lastly, give yourself ample time to plan your outfits and prepare for the photoshoot. By planning ahead and allowing sufficient time for grooming and outfit coordination, you'll feel more relaxed and confident on the day of the session, allowing your genuine joy and connection to shine through in the photographs.

With thoughtful preparation and collaboration with your photographer, your engagement photoshoot promises to be a memorable and joyous experience, capturing the essence of your love story for years to come.

# Questions

## *Ask Your Photographer...*

### ***What kind of photographer should I book for my wedding?***

It is important to select a photographer who specializes in weddings and shoots weddings regularly. A good photographer will spend time planning for your wedding day. They need to be very adaptable, work well under stress, able to quickly and accurately shoot throughout the day, especially in variety of lighting scenarios.

### ***Can you tell me a bit about what it would be like to work with you and your process?***

I really get invested in all my couples. I want to know as much as you'll share with me. You can call, text, message or email me anytime. Ask me all the questions, and use me as a resource! Plus, the more I know about you and your wedding, the better I can serve you.

In a nut shell, I typically meet with my couples for an initial consultation, or we can do this over the phone too. Upon booking, I send you a welcome packet with useful information in it. When you're ready we will schedule your engagement shoot. Depending on where you are with planning, I will send you a couple different questionnaires. If possible, I like to go to the venue and walk through it with you. If you have a wedding planner or coordinator I work with them on wedding day timelines. And no problem if you don't, we will work together to come up with a perfect timeline for your wedding day. And of course, I will be your photographer on your wedding day!!

### ***Do you deliver more photos than what you have listed ? Do you charge for the them?***

I always deliver more than the minimum number of photos listed on your collection. That is just the minimum number of photos that you will receive. I don't charge for any extra photos. I truly believe you should have all your memories, and not feel like you have to pick and choose what images to buy. This is your wedding, your memories and your photos.

### ***How will I receive my photos? Can I share them with people?***

You will receive an email with a link to your photos. Most galleries are organized into the following: sneak peek, highlights, pre-ceremony, ceremony, reception, black & whites, and sometimes a bloopers section. I absolutely love black & white so I always include some!

You can view, download, share and even order prints from this link. You will have control on you who share that link with. To download any photo, you will use a 4 digit PIN. So if you would like other people to be able to download photos, then you will also share that PIN with them. I don't charge for others to view or download photos. You will have unlimited number of downloads.

Again, I want you to have, share and cherries YOUR wedding photos with whomever you like. I'm a firm believer in backups. So, for safe keeping I send you a thumb drive of all your photos too.

*Roseann*

*Let's schedule a time to talk so I can answer any questions you may have. You can text, call, message or email me.*
