FLEUR BOURS

# Congratulations!

You're getting married! What a beautiful adventure you're about to embark on together. This day deserves to be captured in the most beautiful way — timeless, elegant, and pure.

I'm Fleur, a wedding photographer with a passion for authentic and refined imagery. My photography is all about real moments, without forced poses. During an introductory meeting at my home in Groessen, we'll get to know each other and see if we're the perfect match for your wedding day. I'd love to hear your story.

# About Fleur

"It's an honor to be there on one of the most beautiful days of your life, capturing moments that matter deeply to you — forever."

Photography was part of my life from a young age. My dad used to walk around with a camera, capturing me and my sister. From beach holidays to special moments with family and sleepovers at our grandparents' house — these memories became treasures I still cherish today.

My name is Fleur Hakvoort-Bours, a photographer with a love for travel, nostalgia, and everything cosy and stylish. With a keen eye for detail and a feel for atmosphere, I capture timeless, romantic stories — full of authenticity, emotion, and connection.

# My style: timeless, elegant & pure

Over the years, I've refined my style, and soon discovered that the word *pure* truly reflects both me and my photography. But what does that really mean?

Quite simply: I let you pose as little as possible during the shoot. That's how we create the most genuine images — filled with emotion and timeless beauty. I'm present for all the important moments, often without you even noticing.

Because my parents took so many photos of my childhood, those memories are still vivid. When I grew older, it clicked: *this* is what I want to offer others.

With a love for timeless imagery, elegant aesthetics, and an eye for even the smallest details, I'll capture your day just as it truly was — pure, stylish, and heartfelt.

Of course, a wedding isn't just about spontaneous moments. It's full of meaningful events — from the first look to the ceremony and dinner. While I'm always searching for those raw, honest moments, I also make sure that every important part of your day is beautifully and

# Destination wedding

Do you dream of an intimate wedding among the vineyards in France, a stylish weekend at a magical château, or an elegant city wedding in the heart of Paris? Getting married abroad is more than just a wedding.

As a wedding photographer and a bride who got married at a château in France herself, I know from experience how amazing it is to say your vows in a place that is very special to you. Spending a few days with the people in your hearts is something so special. With my timeless, elegant style, I capture your weekend exactly as it feels: authentic and full of emotion. I would love to travel with you to capture your story in the most beautiful way, wherever in the world that may be.

I have created a separate brochure for weddings abroad; please send me a message to request it.

# How will you receive the photos?

I would love to personally conclude our collaboration by meeting up again at my home. During this appointment, we can chat about your day, look at your photos together, and of course, I am super curious to hear your reaction!

Every couple receives their photos from me in a beautiful online gallery. You can share this gallery with everyone you want. During our appointment, you will receive the login details for this online gallery, and we will enjoy looking at your photos together.

You will also receive your personal mini album from me during this appointment! I have already designed and ordered this for you in the meantime. So, you can already take this mini album home with you!

# What to expect

# Do you also make wedding albums?

Absolutely — with all my heart! A handcrafted wedding album is the most beautiful way to relive your day. A digital file is nice, but a physical album truly brings your memories to life.

You can hold it in your hands, flip through it together, and share it with your loved ones.

The average investment for a luxury wedding album is €750. This includes a custom 30x30 cm album. Other sizes are available too. During our introductory meeting, I'll show you my demo albums with a wide range of cover materials like leather, velvet, linen, and different photo paper types.

A beautiful wedding album is the finishing touch to your wedding story — an elegant document full of treasured memories.

# Minialbum

In addition to the digital files of your most beautiful wedding photos, you will also receive a beautiful mini album from me as a lasting memory of your day.

This mini album is a smaller version of a luxury, large wedding album. With the same high-quality finish, sturdy pages, and a timeless design.

I give you this album as a gift with love, so that you can also look back at those cherished moments offline, at any time. Luxury in pocket size: a small but special keepsake that always keeps your most beautiful memories close and that you love to show to family and friends.

# Inspiration

# Kind words

## M & D

From our first meeting to the big day, Fleur involved us in her ideas and listened to our wishes. She strikes the perfect balance between being present and invisible. During our photo moments, she gave us just the right confidence with her kind words and creative ideas. Fleur's care, eye for detail, and reliability went above and beyond. Thank you, dear Fleur, for the beautiful result. We truly enjoyed having you — it's even a little sad that it's over...

## A & E

Incredible... We're so happy with the photos and the atmosphere Fleur created! Just a few days after the wedding, we already received a preview. Photos full of detail and emotion that brought us right back to our amazing day! From beginning to end — flexible, clear communication, thinking along, with a relaxed vibe during the shoot. We loved having you with us, dear Fleur. The photos say it all — grazie mille!

## L & A

Fleur captures real moments. She documented the emotions of our day so beautifully — even without us noticing. She sees the little things, and every time we look at the photos, it feels like reliving the day. They turned out stunning! She also communicates openly and kindly, and really thinks with you. In short: an amazing photographer!

## E & N

So grateful we found Fleur — it was a wonderful collaboration. We had great contact leading up to the wedding and even met again at the venue shortly before. On the day itself, she was a lovely presence — sometimes I didn't even notice she was there. She captured gorgeous moments, and the memories she gave us are priceless. Every time I look at the photos, I feel the wedding day all over again.

# Let's meet!

Feeling as excited as I am? Then I'd love to invite you for a no-strings-attached introduction. I can't wait to meet you!
