

Detail Box

THE
SKYROOM
NORTH CAROLINA

The following list is great to use for detail shots! They're all optional, but make for fun photos and showcase all the small details you thought through during planning. We recommend putting most items in a bin to keep them safe/straight, with shoes and other items that may be with you in the dressing suite added when you arrive at the venue. Your photographer/videographer will return these items to you once they finish your flat lay (usually one of the first shots they take).
